

Tobler Sustains Injury to Finger

Hugh Tobler sustained severe injuries to the index finger of his right hand when it was caught in an automatic chicken feeder last Monday at the Albertson broiler houses located two miles south of Meridian.

Thirty stitches were required to close the gashes in his finger. Tobler was working on the feeder when his hand was suddenly drawn into the mechanism.

The former proprietor of Tobler's Feed and Fuel at Nyssa just last week assumed the position as supervisor of three Albertson corporations in Nampa area with his office located in Nampa.

CLASSIFIED FOR RESULTS

Local Soldier Joins Airborne Maneuver

Army Pfc. Jerry D. Gordon, son of Mrs. Magnus Ekanger of route 2, Nyssa, is participating in "Exercise Eagle Wing," a 101st Airborne division maneuver at Fort Campbell, Ky., according to an Army announcement.

Theoretical Evacuees Flock To Malheur County

Some 11,000 atomic bomb evacuees, 900 of them requiring immediate medical attention, flocked into Malheur county last Tuesday night and Wednesday theoretically, that is.

This was the number of evacuees that would have arrived here from the Portland area had Tuesday's Civil Defense Day tests been the real thing, according to Don Graham, local Civil Defense director who participated in Tuesday's exercise.

Graham said that Malheur county would have been able to accommodate these and many more victims. The Civil Defense organization has determined that the county could actually house 50,000 evacuees in existing facilities were it necessary, although there are facilities to feed only an extra 10,500.

According to Graham an announcement was made during the Tuesday exercise that the federal government has approved participation in a county-

Kay McDonald, Linda Hite and Shirley Skinner report the day was spent at a John Day Dude Ranch, fishing, swimming and riding.

Mr and Mrs Edward Boydell and family of Boise spent the past week end visiting at the home of his parents, Mr and Mrs. Arthur Boydell.

Geo. C. Beechler

Candidate for Re-election as
COUNTY CORONER

Republican Primary—May 16

The Coroner's office is a NON-SALARIED office in Malheur County. The Coroner is paid only by fees and mileage. For the three years of 1955, 1956 and 1957, Malheur County paid Beechler a total of \$64.52 in fees and mileage for his services as Coroner.

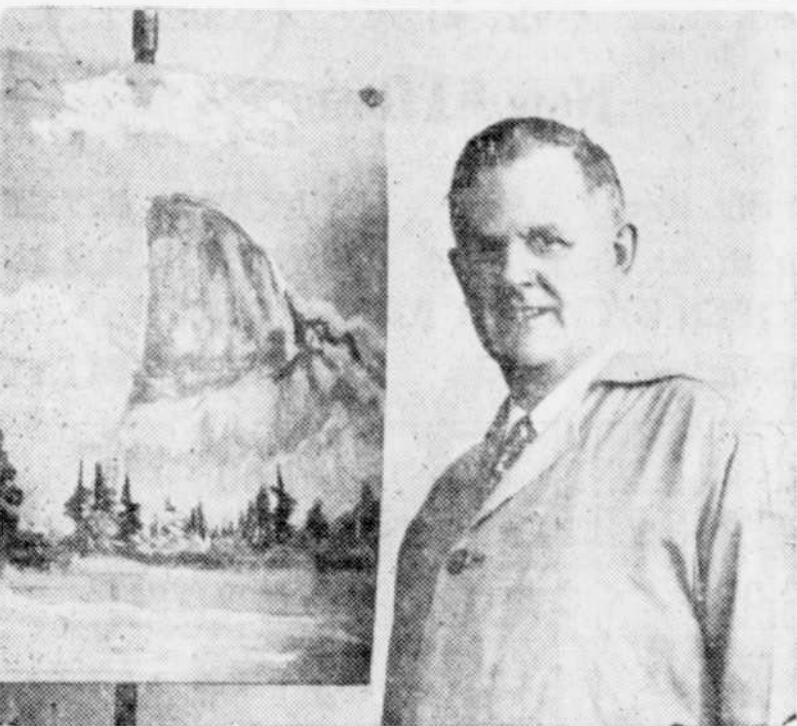

Malheur County does not provide office space or a county morgue for Coroner's use. As owner of the Beechler Funeral Homes of Ontario and Vale, Beechler has provided the facilities of his funeral homes to the county without charge. If re-elected, the same policy will continue of serving Malheur County efficiently and economically.

Beechler has been a resident of Oregon for 46 years and has lived in Malheur County 11 years. He has been a mortician for 30 years and has been Malheur County Coroner for the past two terms. Beechler served with the U. S. Navy in World War II for four years. He is a trained photographer. He has served as chairman of the Malheur County Public Welfare commission.

Beechler is a member of the Vale and Ontario Chambers of Commerce, the American Legion, Kiwanis club and the Methodist church.

Beechler promises continued close cooperation with the law enforcement officials and physicians in the county.

Paid Pol. Adv. by Beechler for Coroner Committee—
The Rev. Orville Gault, chairman; Jim Diven, Len Christiansen,
K. J. Yaguchi, The Rev. Paul Ludlow, Bill Whyman, treasurer.

Here's why Plymouth, America's favorite family wagon, is

TODAY'S BEST BUY-TOMORROW'S BEST TRADE

You get more wagon for your money today...more money for your wagon tomorrow!

Any way you look at it, you can't find a better wagon buy than Plymouth! So big—it carries more, does more, provides more room for family fun. So beautiful—just look at those long, years-ahead lines. So economical—Plymouth is priced right in the low-price "3", yet you can't buy a bigger wagon at any price. And further proof Plymouth beat every car in the low-price class in the 1958 Mobilgas Economy Run; Plymouth's second consecutive victory!

Get the biggest wagonload of value at a price far lower than you would expect. See your Plymouth dealer today.

FIVE BIG REASONS WHY YOUR NEXT WAGON SHOULD BE A PLYMOUTH

1. Biggest of the low-price "3". Big as wagons costing thousands of dollars more. You can't buy a bigger wagon at any price!
2. Holds so much more than the "other two". Over 7 cu. ft. extra passenger and cargo space. Optional "secret" luggage compartment available in 6-passenger models.
3. Rear-facing 3rd seat. Folds flush into floor. You don't store it outside when it's not in use. Easy to enter, has convenient back step.
4. Disappearing rear window. Rolls down into the one-piece tailgate. Doesn't jut out. Only on Plymouth wagons in the low-price "3".
5. Torsion-Aire Ride at no extra cost. Only Plymouth has it in the low-price "3". No sideway on turns...no nose-dive on stops.

They don't come any bigger than *Plymouth* station wagons

Complete the circle of safety...check your car...check your driving...check accidents

MR. ALFALFA SEED GROWER:

In Alfalfa Seed Crops

DODDER IS CONTROLLED WITH JACK WILSON Pelletized CHLORO IPC-10

A. Where first cutting is taken for hay . . .

1. As soon as the first cutting of hay is removed, go over the field with a burner. This is to kill any Dodder which may be established on the alfalfa stems below the level of the mower sicklebar.
2. Evenly apply JACK WILSON PELLETIZED CHLORO IPC-10 at the rate of 60 pounds per acre.
3. Promptly irrigate the field to activate the pellets. Dodder is a shallow germinator — irrigate lightly. Later, irrigate as usual.

B. Where no clipping is done ahead of seed crop . . .

1. Make close and frequent inspections of field to determine when Dodder starts to germinate. Keep a record by date of inspections. Inspect closely and often.

2. Time the application of pellets to coincide with the first germination of Dodder, or as soon thereafter as possible.

3. Evenly apply Jack Wilson Pelletized Chloro IPC-10 at the rate of 65 to 70 pounds per acre. This greater dosage is required to last longer and to assure more even soil coverage against intervening foliage, where no burning has been done.

4. Promptly irrigate the field to activate the pellets. Dodder is a shallow germinator so irrigate lightly. Later, irrigate as usual.

IMPORTANT:

Where the first cutting is taken off and the field burned and treated as under "A"—JACK WILSON PELLETIZED CHLORO IPC-10 will give best control of Dodder.
