

Young Tumblers "Fly Through the Air With the Greatest of Ease"

PICTURED AT LEFT ARE youngsters of the fourth, fifth and sixth grades and one seventh and one eighth grader of Nyssa grade school performing a few of their "spectacular feats" they have accomplished in the tumbling classes under the instruction of Principal W. L. McPartland. Upper left photo catches one girl diving over a necktie held higher than her head by two fellow tumblers. High in the air is another acrobat, upper left, after McPartland flipped her by one leg and she completed a backward somersault, landing on her feet. The lower photo shows another tumbler completing a back-flip which started from a cartwheel. Tumbling sessions held each Tuesday after school and which are open to all grade youngsters as an extra-curricular interest, draw some 100 kids each year, many of whom work diligently and become adept at the above acrobatics and many more fascinating antics. Several of the above group were among the 11 tumblers who journeyed with their instructor to Sun Valley last June to perform before the Lions convention. The young tumblers have given exhibitions before ballgame audiences and for various other public gatherings in Nyssa.
