It's Rodeo Time Again in Nyssa

After skipping a year, Nyssa will pick up where it left off in 1955 with the 11th Nyssa Nite Rodeo on Friday and Saturday nights.

Although sponsored by the Owyhee Riding club with Lynn Snodgrass as the general manager and "the man with the push," the event can be called Nyssa because of the town-wide support extended from every quarter.

They have proved the show can be self-sustaining and because of that fact, these 40 business firms, through the Chamber of Commerce merchants committee, are helping publicize the event throughout the lower Snake river valley with thousands of circulars containing a wide variety of ads with Nyssa Nite Rodeo as the theme.

Before anyone suggests that the advertising promotion has a tinge of commercialism on the part of business firms, it must be remembered that a many-fold purpose is the objective, including: 1) Telling the entire area about the rodeo, 2) Informing people of the same area about Nyssa, 3) Emphasizing the fact that so many business firms can and do cooperate so wholeheartedly on a single cause, 4) Bringing attention to the fact that retail firms have such a wide variety of merchandise at more than attractive prices.

Of all forms of entertainment, rodeos probably head the list in all-out attendance records. People just naturally like to see bucking horses, bull-dogging, riding club drills and all the other events that go with rodeos. Those who are "lukewarm" about this popular form of entertainment soon become enthusiastic because of the widespread, popular appeal.

If you want to see a friend or acquaintance from any part of the area, be in Nyssa Friday and Saturday and at the rodeo grounds both evenings.

PETE'S T.V. TIPS

A weak picture tube need not always be replaced. A dim picture or one lacking in contrast are two of the many symptoms of an ailing picture tube. Most servicemen have an instrument that will test the condition of your picture tube. If the tube tests weak, your serviceman can quickly rejuvenate it. The length of time rejuvenation will last is somewhat indefinite. However, some picture tubes have gained from one to three years extra service. Best results are obtained before the picture tube becomes too weak. For this reason I make it a practice to check the tube on all service calls and advise the customer of its condition.
