"We Get About a \$5 for \$1 Return from Fertilizers"

"N" It takes N, men

Vernal Munsee and Dwayne Draper of Paul, Idaho, are among the many progressive farmers who use USS Nitrogen Fertilizers with profitable results.

"We figure we get back about \$5 for every \$1 we invest in fertilizer. Returns like that are hard to beat," says Mr. Munsee and Mr. Draper.

"We have had excellent results from USS Nitrogen Fertilizer," these men report. They use adequate nitrogen and phosphorus on sugar beets, beans and grain and get top yields. They often check yields on fertilized fields by leaving an unfertilized strip—"you can see the difference and harvest the difference. Proper fertilization means added profits," these partners report.

Farmers, you want the best when you buy fertilizer. You want top quality and top yields. Order the finest—USS Nitrogen Fertilizers, made by United States Steel and sold by reliable dealers.
