"I Am Photography"

"I turn back the pages of the Book of Memory. I bring thoughts of past years and of old time friends. I keep forever green the happy hours of childhood. I dull the pangs of bereavement, and dull the edge of the Grim Reaper's Scythe. I carry the news of the world and bring you visions of far-distant lands.

"Our modern civilization is largely dependent on my efforts. Though man may pass and empires crumble to dust, my magic will preserve their likeness for future generations. Not purse proud, I am within the reach of all. I solve mysteries impetrable to mortal eyes. I ferret out the criminal when other means have failed.

"I illumine the pages of history, and make learning possible for the multitude. Born instantaneously in a ray of light, I become everlasting. As necessary in war as in peace, I am Man's servant and yet his master. I am an art, a science, a business.

" . . . I am photography."
