How MANY HORSES IN YOUR HOME?

The electricity used by the average Snake River Valley family actually equals the work of several powerful horses, perhaps 8 or 9.

Hard to believe? Stop for a minute and think of all the ways you put electricity to work around the house—and how often. There are more than 50 common uses of electricity in the home—over a hundred on the farm. And families served by Idaho Power Company use more than TWICE as much electricity as the average American family!

Yet the cost is small for so much value. Electricity is the BEST BARGAIN in your family budget!
