THANKSGIVING . . .

We plan to have the Journal in the mail Wednesday night next week, as usual, but since the next day is Thanksgiving, only the Nyssa boxholders will receive it before Friday. So this is our Thanksgiving paper.

THANKS is defined as grateful acknowledgment of favors or gifts, so we can be grateful to our kin, friends, most of our fellowmen, but in a far greater measure to our God for all that we have or are.

Thanksgiving day has been proclaimed by man, as a time to turn our thoughts backward over all the year and call to mind all the things for which we should have been thankful, but may have taken for granted at the time. But God has proclaimed every day as a day of Thanksgiving, and at the Last Supper, Jesus gave thanks when he knew what lay ahead.

Many families offer thanks at meal times for the food they have before them, but if this is the only time of prayer in their family life, should they not offer thanks for all the other gifts of God—clothing and shelter are items for which thanks should be given.

May we remember to make all our days Thanksgiving ones and our prayers those of thanks instead of selfish asking.

WITH GRATEFUL HEARTS

Our fathers' God, to Thee, Author of liberty,
 To Thee we sing;
 Long may our land be bright
 With freedom's holy light,
 Protect us by Thy might, Great God, our King.

**Assurance
of
Quality**

Next time you're in town, ask us to show you our Check-R-Mix Certificate of Accuracy.

It means a lot to us but it also means a lot to you, because that certificate is your assurance that the Check-R-Mix rations we make for you from your grain and Purina Concentrates are mixed RIGHT.

Proper mixing assures you of correct blending of Concentrate and grain, providing the RIGHT amount of each ingredient in every bite or beakful your animals or birds eat. This helps you get uniform growth and avoid waste.

Accurate mixing also helps us follow the research-backed Check-R-Mixing formulas Purina provides... making it possible for us to build efficient, low-cost livestock and poultry rations from your grain.

We couldn't buy our Certificate of Accuracy. Purina checked the work we do in their own laboratories... then awarded us our certificate on a basis of what they found.

We're glad we passed the test, for now we know we can provide the kind of rations which will help you feed your grain efficiently, getting the kind of results from your livestock and poultry that help you make good profits.

BRING IN YOUR GRAIN

Our Purina-approved Check-R-Mix equipment is designed to handle your grinding and mixing needs speedily and well. Ask us about the many grain handling services we can perform.
