**Marching Mothers to Collect Facts, Funds**

"If you can answer no to the questions inside, be thankful! If you must answer yes, take hope!"

American mothers will carry this message to over 30 million homes this month. The mothers, volunteers in the annual Mothers' March for the New March of Dimes, will be seeking information and support for The National Foundation's fight against birth defects, arthritis and polio. These cripples, initial targets in the National Foundation's campaign to prevent crippling disease, affect the lives of one of every four American families.

**Two Million in March**

An estimated two million women will join the nationwide mothers' appeal for facts and funds. In most communities the mothers will march Thursday evening, Jan. 28, bringing to a climax the New March of Dimes January campaign.

The mothers will present each household with a copy of "Door Count," a concise fact-finding folder in which a family may indicate if any of its members has a birth defect, arthritis or polio and how many have had three or more Salk vaccine shots. Each family record will be confidential.

**Salk Shot Reminder**

The Mothers' March door count will focus family and community attention on the majority of Americans still without Salk shot protection against paralytic polio. It will remind the unvaccinated to start shots in time for summer polio protection and it will help communities plan local programs to further encourage

This questionnaire will go to more than 30 million homes in every part of the country to provide information about three crippling diseases that affect one of every four American families.

the widespread use of Salk vaccine.

Although the house-to-house poll is in no way planned as a statistically valid survey, the sum of information taken in the door count will provide a working estimate of the number of persons suffering from arthritis; the number born with birth defects and the number who have been victims of paralytic polio. This tabulation will help guide National Foundation county chapters in formulating local programs to aid the disabled.

Mothers making the house-to-house door count will also seek contributions to the New March of Dimes for its attack on birth defects, arthritis and polio. The New March of Dimes is combating these disabling disorders with the same effective weapons used to conquer paralytic polio: medical scientific research to find causes, cures, preventives; patient aid for medical care; and training for medical workers needed to treat the sick and disabled.

Two million mothers like this one will conduct a house-to-house door count this month seeking information and support for the New March of Dimes campaign against birth defects, arthritis and polio.

**Veterans' Funds Lower for 1960**

After setting a new record for Oregon veterans' farm and home loans in 1959, the Department of Veterans' Affairs announced that starting Jan. 18, its loan volume will be reduced by more than two-thirds because of a shortage of loan funds.

The veterans' department last year granted 5170 loans to World War II and Korean veterans in the amount of \$52,932,550, exceeding the previous high year of 1957 by more than \$16,600,000 and by nearly 1200 loans. In that year, 3979 veterans borrowed \$36,269,000.

But Department Director H. C. Saalfeld said the final amount of loan funds was committed to borrowers as of Jan. 18, and loans starting on that date are being scheduled for funds at the rate of 120 a month. Loans in 1959 averaged 430 a month.

"In other words," Saalfeld said, "loans in 1960 will be limited to funds received from veterans' loan repayments, after we pay operating expenses, principal and interest on bonds outstanding, and annual property taxes."

The first 120 loans on the new scheduling basis will be set up to receive closing funds in April; the next 120 in May, and so on. This condition will last at least through 1960. What happens after that will depend upon the outcome of a measure on the ballot in November's general election to set a higher limit on the amount of bonds that may be issued to finance the loan program.

Janis spent Sunday with Mr. and Mrs. Irvin Topf and family. Mr. and Mrs. R. T. Simpson, Alice and Ben Love were dinner guests of the Alfred Simpson family.

Mr. and Mrs. John Easin, Suzy and Mr. and Mrs. Gene Simpson and family were Sunday dinner guests of Mr. and Mrs. R. T. Simpson.
