### IDEAL GAS & APPLIANCE

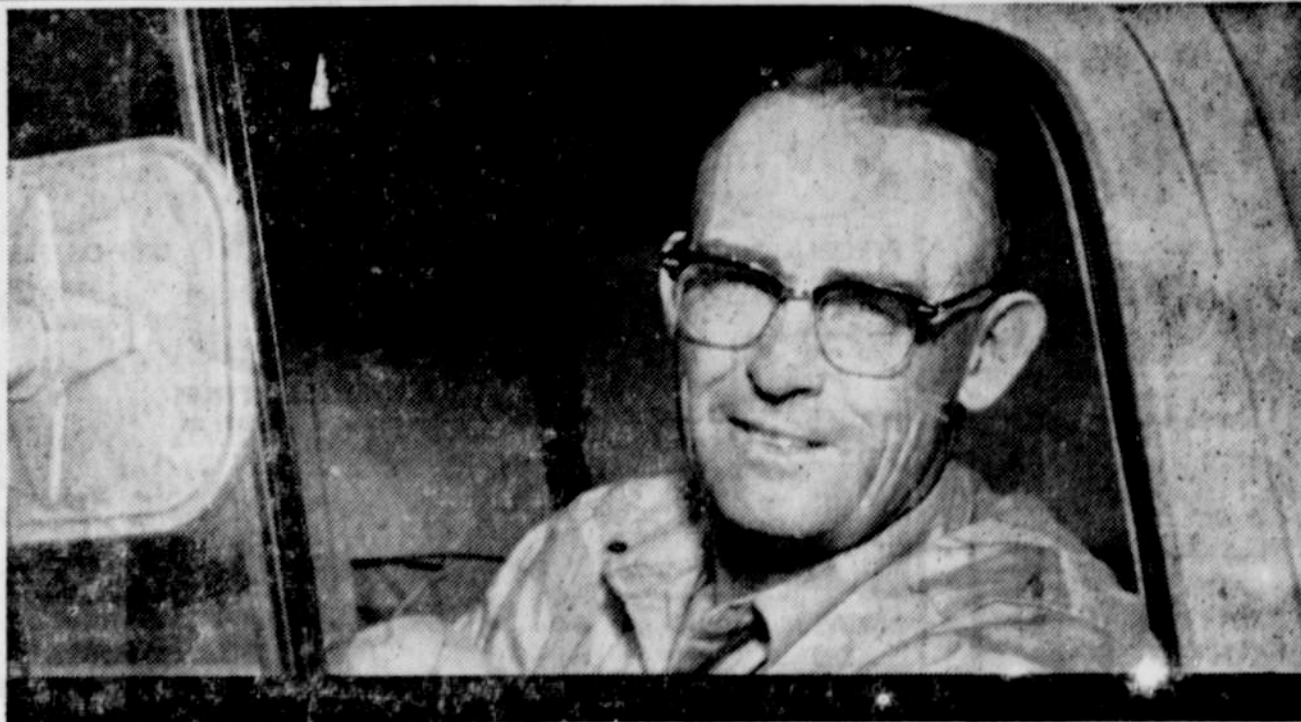

— PROPANE —

"Your Servant Beyond the Gas Mains!"

14 N. First FR 2-2214

**Farmer X Used 50 lbs. of 'N' on His Corn and Harvested 15 Tons of Silage per Acre**

**Farmer Keith Wood Applied 110 lbs. of 'N' per Acre And Harvested 30 Tons of Silage per Acre**

## USS Nitrogen Fertilizers

"The pay-off for proper fertilization is in extra dollars at harvest time."

That is the statement of successful farmer Keith Wood of Caldwell, Idaho. Last year Mr. Wood applied more than 500 lbs. of USS Ammonium Sulfate an acre on his corn and harvested 30 tons of silage an acre. He used 600 lbs. of ammonium sulfate per acre on sugar beets and harvested 30 tons an acre. He also used USS Nitrogen Fertilizer on his wheat and barley with excellent results.

"Farmers who don't use enough fertilizer

just can't expect top yields," Mr. Wood said. Farmers who use enough fertilizer, harvest more dollars. Ask your USS Nitrogen Fertilizer dealer today for a copy of fertilizer recommendations from the University of Idaho, Extension Division. These recommendations have been published in a convenient wall chart by United States Steel. If your dealer is out, write United States Steel, 919 Kearns Building, Salt Lake City 1, Utah, for your Idaho Fertilizer Guide.

Insist on USS Nitrogen Fertilizers this year and use recommended amounts.
