NOW LOOK WHAT
CORVAIR'S
GONE AND DONE!

The same Corvair that tallied a thumping 27.03
 miles per gallon* in the Mobilgas Economy
 Run . . . went right on to climb Pikes Peak
 earlier in the spring than any car
 has ever tried!

We wanted to show you what the fabulous traction
 of Corvair's rear-engine design and the sure-
 footedness of four-wheel independent suspension
 really mean. So the identical Economy Run car
 went right on to 14,110-foot Pikes Peak—and right
 up to the top of that savage mountain, on April 15,
 still deep in winter's snow and ice. No other car—
 even specially equipped—had ever been able to
 conquer that nightmare alpine road so early in
 the spring. But Corvair (with United States Auto
 Club officials aboard to certify that not one nut
 or bolt was changed) purred right to the summit
 without chains or even snow tires! That just
 underscores the fact that Corvair is totally unique.
 But you'll find that out the first five minutes
 you're at the wheel!
