

Bicycle Mishap In Apple Valley Injures T. Sells

By Mrs. Waldo Smalley

APPLE VALLEY—Boy Scouts in Apple Valley met at the Mentor Leigh home Thursday afternoon. On the way home Terry Sells had an accident which might have been very serious. He was riding his bicycle downhill and didn't stop for the stop sign at Correll corner, running headon into Blackie Sullivan's pickup, which was luckily traveling very slowly.

Terry was taken to the hospital in Nyssa but returned home after treatment for superficial cuts and bruises. His bicycle was badly smashed.

Lackey House Guests Recall Pioneer Days

Mr. and Mrs. James P. Thompson of Bellevue, Wash., visited at the John Lackey home over the weekend. John and Jim were old schoolmates in the early '90s. At that time they recalled it was "spare the rod and spoil the child." The school was a three-months' subscription course and was taught by a Mr. Brooks in a 12 x 14 homestead shack located where Dean Fife now has his home dairy.

At that time Nyssa was very small. There was a section house, water tank and pump house. Lennox B. Boyle operated a small store and post office in a building northeast of the underpass.

D. R. Ehrgood lived in a homestead shack near the river about 1/4 mile north of the present highway bridge.

The Lackey barn was located where the sugar factory now stands and the house was south of the barn. The section house, which was built in 1883, is the only one of the buildings still standing.

MORE PROOF...it pays to feed PURINA

Gordon Thompson, left, and Veryl ("Butch") Winn work in partnership. When fire destroyed their large-scale fryer operation, they converted their land into cattle feedlots. 500-800 cattle are on feed at all times.

New grain with "built-in roughage" — Steer Fatena Program produces 100 lbs. beef for \$17.40 feed cost

Last fall, Gordon Thompson and Veryl ("Butch") Winn, Milton-Freewater, Oregon, had 184 head of cattle on full feed on the new rolled barley—Steer Fatena Feeding Plan which Purina Research pioneered. The cattle weighed an average of 842.9 lbs.

Forty-nine days later, the cattle weighed an average of 1010.8 lbs. for an average daily gain of 3.42 lbs! It took only 6.72 lbs. of feed to make 1 lb. of gain. Feed cost to produce 100 lbs. of beef was only \$17.40.

Whether or not you feed barley... whatever your grain or roughage situation may be... there's a research-proved Purina Steer Fatena Feeding Program designed to fill your particular need. Come in. Let's talk it over.

We also have our own local barley feeding program going at the pen on Alberta Ave. west of Nyssa. At the end of 28 days these cattle have put on excellent gain at a feed cost of \$17.14 per hundred pounds.

We welcome you to come in and will gladly show you this barley feeding program in our own locality.
