SWEET SUCCESS!

—but, then, Falcon had it from the start!

Never before has a "first year" car enjoyed the acceptance that Westerners have given the Ford Falcon, America's lowest-priced six-passenger car! It's the nation's best-selling compact car! Falcon's quality is built in. Its performance is a matter of record. Before the first Falcon was delivered, Ford put regular production-run cars through a severe 176,000-mile test. Now, less than a year later, millions of miles have been rung up by Falcon owners...proving what we knew from the start: that you get up to 30 miles per gallon with the most delightful driving car owners have ever experienced.
