From where I sit ... by Joe Marsh

On the Right "Track"

Jeb Fisher, the local stationmaster, tells a story that happened last winter during one of our worst blizzards.

Seems there was a Center City salesman down at the depot waiting for the scheduled 8:02 train. Storm raging the way it was, small town, why, the poor chap pictured himself stranded for days. Suddenly a train emerged from the storm and creaked to a stop. It was the 8:02, right on time!

The happy salesman shook Jeb's hand and said: "Weather like this and your 8:02 is right on time!" "Hate to disillusion you, son," said Jeb, "but this is yesterday's 8:02."

From where I sit ... things aren't always what they first appear to be. For example, there's the fellow whose first impression is that only iced tea is real refreshment, but not beer, which I prefer. Sure he's entitled to his opinion, but he's got to respect mine too. That's tolerance and that's something we've got to "train" ourselves to have more of.

Joe Marsh

FAMILY PUTS 2,000 MILES A MONTH ON CORVAIR THINKS IT'S MARVELOUS GAS MILEAGE "OUT OF THIS WORLD"

Mr. and Mrs. Richard Kahelin of Plant City, Florida, couldn't be happier with the way their new Corvair has worked out as a combination family and business car. On their newspaper distribution route alone they travel more than 400 miles a week over all kinds of roads. Little wonder they're so pleased with the gas mileage they've been getting — "at least twenty-three miles to the gallon with an automatic transmission . . . and we've had no trouble with our Corvair." The Kahelins have equally good things to say about Corvair's easy-going comfort and unique convenience features. They especially like the way the fold-down seat doubles as a built-in baby sitter.

DRIVE A CHEVY CORVAIR FOR ECONOMICAL TRANSPORTATION

If you haven't driven it yet, you don't know what a delight driving can be. Its steering, response, traction and roadability are unique because it's a unique car — the only U.S. car with an air-cooled airplane-type rear engine, transaxle and independent suspension at all four wheels. Be in on the know. Find out what delightful differences this advanced design makes.
