Happy family finds ELECTRIC HEAT

"clean,
comfortable,
convenient"

"We really enjoy our electric heating system because it is so clean, convenient and comfortable at all times. There is no worry about running out of fuel oil, coal, etc."

"We have five children, and we have had fewer colds and illnesses since we have lived in our home with electric heat. We have lived here two years. Because of the way our home is insulated for electric heat, we have a much cooler home in summer, also, and our kids are happy in the winter. We never have the high heating bills."

"We could go on indefinitely about our electric heat because it is so wonderful."
