ELEPHANT BRAND FERTILIZER PAID FOR THIS CAR

This is not an exaggeration. By the proper and effective use of Elephant Brand fertilizer thousands of farmers have been able to make the money for something they wanted, such as a new car or new farm machinery.

With Elephant Brand fertilizer you grow bigger crops. Your cost of growing the crop is spread over more crop units (more bushels, bales, tons or pounds) so you grow each unit for less. Lower production cost per unit means you increase the difference between cost price and selling price — that difference is your profit.

Using Elephant Brand will mean more money for you in three ways: first,

your better-grade crops bring higher prices; second, your bigger yields give you more to sell and third, you get a greater profit on each crop unit of whatever you grow.

GET A BIGGER PROFIT "SLICE"

Think of this "pie" as the money you get for every crop unit you grow. The darkened portion is your profit. Fertilizer helps you get a bigger profit "slice".

ELEPHANT BRAND PLUS VALUES

- A wide range of plant food ratios • Uniform-sized — free flowing — pelletized products
- All fertilizers highly water soluble • Strong, weather-resistant, non-slip bags
- Extensive warehouse system for fast dealer service
