JOHN C. ELFERING For Malheur County SHERIFF (REPUBLICAN)

The Sheriff's Office

Unlike most public offices in Oregon, the office of the sheriff is concerned with substantial business affairs as well as law enforcement. Experience in both of these fields is an important attribute of a candidate for this position. The citizens of Malheur county now have a sheriff with long experience in both of these areas.

Personal History

Sheriff Elfering is 50 years old, he has been married for over 25 years, and is the father of six children, one of whom is teaching, two others are now in college, and three are attending grade school. He has been a resident of Malheur county for many years, lives upon a Vale area farm which he purchased over 17 years ago, and is sensitive to needs and aspirations of the citizens of Malheur county.

Sheriff Elfering finished high school after his marriage, and has been credited with two years of college work since. He has worked for one year in a police capacity with the Federal government, eight years as a deputy sheriff of Los Angeles county, and he has been sheriff of Malheur county since 1948. He has been president of the Oregon Sheriffs' Association and is presently chairman of its Legislation Committee. From a membership of 13,500, Sheriff Elfering was elected to the Board of Governors of the National Sheriffs' Association, and this year was elected vice president.

He is a member of the Ontario Elks, the Nyssa Eagles, the Farm Bureau, Grange, and the Knights of Columbus.

Public Commendations

The office of sheriff is everywhere subject to the election time rumor. This is also true in Malheur county. But the fact is that Sheriff Elfering has conducted his office with integrity and honesty. In 1955 thirty clergymen from Malheur county publicly commended Sheriff Elfering for his activities in ridding the county of organized vice; the Ontario Ministerial Association similarly congratulated him for the work that he did and the Attorney General of this state wrote in recognition, of his "good job in this matter." In every one of seven years between 1949 and 1959 this vice has been successfully attacked in Malheur county. His law enforcement activities have been vigorous, impartial, and effective.

And It Has Been a Full-Time Job

The position of sheriff requires a man who can assemble about him deputies and employees who are as dedicated to the responsibilities of the position as the sheriff himself. This Sheriff Elfering has been able to do.

This position requires an able administrator, a fair employer, an experienced businessman, an honest and effective law enforcer. With nothing less can the best interest of Malheur county be served.

Sheriff Elfering has progressively demonstrated these qualities in his 12 years of office.

• Experienced Businessman • Effective Law Enforcer

Forage Elements Affect Nutrition Of Cattle, Lambs

A diet that lacks copper or has an excess of molybdenum can cause a serious nutritional disturbance in cattle and lambs, research of the Oregon State college agricultural experiment station shows.

Copper is necessary in forage crops so animals will utilize iron to form sufficient quantities of hemoglobin, the red pigment of the blood. An excess of molybdenum interferes with the animals' use of copper.

Dr. J. R. Haag, professor of agricultural chemistry, said fortunately, excess molybdenum levels appear largely to be confined to specific marshy grazing areas.

Symptoms in cattle of this nutritional deficiency may include lack of thrift, discolored hair coat, scouring and broken bones. When a black sheep has a copper deficiency, the color and crimp of the wool both disappear.

This deficiency was uncovered by checking the levels of copper in the animals' blood and liver. The deficiency may be either a lack of copper, an excess of molybdenum or both.

Some 1500 pairs of blood and liver samples were studied in Oregon in order to obtain evidence of the impact of regional facts on this nutritional deficiency. Different patterns of blood-liver relationships were found in

The Ruth and Naomi circles of the Adrian Presbyterian church held a joint meeting Wednesday evening at the home of Mrs. K. I. Peterson. There were 20 members present. Mrs. Peterson served lunch.

Mr. and Mrs. Glen Brown returned Sunday evening from Portland where they attended funeral services Friday for his brother, Norman Brown.

Astoria, Squaw Butte and Klamath areas.

The molybdenum content was found to be most potent in the more succulent young forage crops. When hays mature, the molybdenum content goes down. No serious problems have been encountered in any feedstuffs entering the market.

Molybdenum does not show any marked tendency to accumulate in eggs, meat or milk, Dr. Haag emphasized.

To maintain the proper amount of copper in forage, copper may be applied as a fertilizer in some

parts of the world. This method has not met with much success in Oregon, Dr. Haag said.

Three ways the copper level can be increased in cattle or sheep is to mix it in the feed, put it in the salt, or, in an emergency, inject it into the animal.

15 is a BAD bill

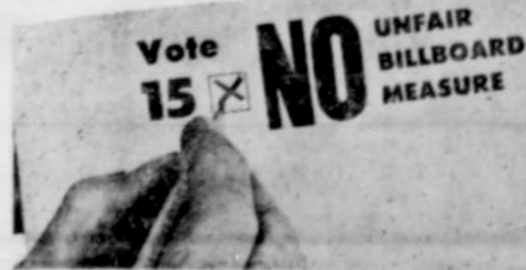

DON'T BE MISLED

FACT 1. THIS BAD BILL WOULD GIVE THE STATE A BLANK CHECK TO BUILD EXPENSIVE AND INCONVENIENT INFORMATION SITES WITH YOUR TAX DOLLARS!

FACT 2. MEASURE 15 WOULD DESTROY MANY JOBS AND PAYROLLS - WOULD HURT OREGON'S \$176,000,000 TOURIST INDUSTRY!

FACT 3. THIS BADLY WRITTEN BILL WOULD NOT PROTECT SCENIC HIGHWAYS - WOULD ACTUALLY CAUSE CLUTTERING IN MANY AREAS!

★ SAVE TAX DOLLARS ★ SAVE JOBS AND PAYROLLS

This measure puts the State in the billboard business. Authorizes it to acquire land, build roads and construct hodge-podge boards each containing 24 advertisements. The State would say who could advertise - who couldn't. These off-highway sites would be danger traps at night. Vote NO on No. 15.

Hundreds of off-highway and roadside businesses would be denied the opportunity of telling motorists their location or what services they offered. Result: Lost business... lost jobs. Vote NO on No. 15.

Everyone agrees—scenery must be protected—but this measure prohibits signs in many non-scenic areas and allows signs in many scenic spots. It is a badly written and misleading bill!
