Robert G. Ingram Democratic Candidate For Sheriff

I believe I am well qualified for the office of Malheur County Sheriff. A life-time resident of the county and thoroughly familiar with its problems, I have spent the last 13 years as Police Chief of Vale.

During that time I have attended a number of advanced FBI training schools and various other law enforcement courses. I have worked closely with various police agencies, including county, state and federal officers.

My election to the office of sheriff would be an expansion of my present work as Vale Police Chief. My years of experience in law enforcement work as well as knowledge gained in the various schools not available to anyone not in that type of work would all be to the benefit of the people of Malheur County.

I was born in Vale in 1921, attended elementary school in Watson and Vale, and went to Vale Union High School. I was married in 1943 to Beatrice Fischer, a local girl, and have three children: Barbara, 16; Bill, 14; and Mary Kay, 9.

I am a member of the Oregon Association of City Police Officers, the Oregon - Washington Lawman's Association, the National Peace Officers, Inc., and Northwest Peace Officer's Association.

The only promises I will make to the people of Malheur County are that I will be a full-time sheriff, I will mark the cars and put the officers in uniform and I or a deputy will be at the office on Saturday, a day the Court House is closed, for people's convenience. I will take care of your complaints immediately to the best of my ability. I will study our problems closely and do my best for the betterment of our county.

To you people who do not know me, I ask that you check with the people of my home town of Vale where they know me best.

I am applying for the job of COUNTY CLERK not as how well I can hire the job done but how well I will be your clerk. I am qualified by experience as a legal stenographer, three years of actual work in the office of the County Clerk and at present I am Secretary to the Credit Manager of Ore-Ida Potato Products, Inc. The duties of the Clerk should be assumed by the Clerk and not by various other personnel.

The present qualified personnel can be assured of their positions under a new administration. It is costly to train new help and partisan politics will never be employed. I believe that more emphasis should be placed on government on the local level—good government begins in the home, school, city and county. If these things are stressed, state and national positions will follow the trend. The figures taken from the budget for Malheur County as certified by the budget board in June 1960 reveal the following statistics for the office of County Clerk:

EXPENSES			
6-30-58	6-30-59	6-30-60	6-30-61
\$23,500	\$23,800	\$27,300	\$27,700
FEES and RECEIPTS			
\$17,300	\$18,000	\$15,000	\$17,500
\$ 6,200	\$ 5,800	\$12,300	\$10,200
(Deficit Operation)			

Oregon is clerked by 12 women out of the 36 counties. I believe that by doing my share of the work, the budget in future years can be cut and that I can save money.

MORE PROOF...it pays to feed PURINA

Gordon Thompson, left, and Veryl ("Butch") Winn work in partnership. When fire destroyed their large-scale fryer operation, they converted their land into cattle feedlots. 500-800 cattle are on feed at all times.

New grain with "built-in roughage" — Steer Fatena Program produces 100 lbs. beef for \$17.40 feed cost

Last fall, Gordon Thompson and Veryl ("Butch") Winn, Milton-Freewater, Oregon, had 184 head of cattle on full feed on the new rolled barley—Steer Fatena Feeding Plan which Purina Research pioneered. The cattle weighed an average of 842.9 lbs.

Forty-nine days later, the cattle weighed an average of 1010.8 lbs. for an average daily gain of 3.42 lbs! It took only 6.72 lbs. of feed to make 1 lb. of gain. Feed cost to produce 100 lbs. of beef was only \$17.40.

Whether or not you feed barley... whatever your grain or roughage situation may be... there's a research-proved Purina Steer Fatena Feeding Program designed to fill your particular need. Come in. Let's talk it over.

BOOKING PRICE IS NOW ON...

SO, let us know right away what your feed supplement needs will be through March 31, 1961, so you will be assured of an adequate supply of

A Message to Malheur Voters from G. H. VAN HORN

MALHEUR COUNTY TREASURER

MALHEUR COUNTY VOTERS:
Being a full time employee of the people of Malheur County, the time element prohibits me from making a personal contact campaign. In lieu of that, permit me to take this means of contacting you.

I will try and present briefly some facts and figures which may help you decide upon the man you want for County Treasurer for the next four years.

Probably the uppermost thought in people's minds is economy. How does the Treasurer's Office rate in economy?

FIRST—Salaries compared to other counties of like size, valuation and money collected, the salary received is below average.

SECOND—The Treasurer's salary is over \$1,100 below the salary of other heads of departments, either elective, or appointed in Malheur County.

THIRD—No outside help has been hired during my terms in office. No formal vacations have been taken nor any sick leave used.

FOURTH—Office expenses have been kept to a minimum and haven't been entirely spent in any one year.

FIFTH—The Treasurer exercises no control over the assessing or spending of tax money. Finally—Will always endeavor to operate the office as economically as possible.

How Efficiently Has the Office Been Operated?

FIRST—Proper investments of "Idle Funds" have returned to Malheur County Taxpayers, monies in excess of the cost of this office's operation in the past few years. Continuation of this practice could mean the office would be self supporting. All obligations regarding Bonds and Interest have been met on schedule without any penalties being assessed. Accounting to the various taxing bodies and the General County has been made with regularity and dispatch. By permission I wish to refer you to the managers of the four banks in the County as to the efficiency of the Office.

EXPERIENCE—To most employers this is a valuable commodity. Eight years experience in the operation of the Treasurer's office should be of value to Malheur County Taxpayers. Don't throw it away. It may be possible that before the next four years pass, the County Treasurer may be the Tax Collector, as a bill to accomplish this will be introduced in the next legislature session. Experience would then be a prime asset.

FINALLY—The people of Malheur County have a choice of keeping in office a proven official, efficient, economical and trustworthy, who has the **HEALTH, DESIRE and ABILITY** to properly conduct the business of the County Treasurer's Office.
