WCS Members Plan Various Activities At General Meeting

Methodist Woman's Society of Christian Service met in the church parlor for the general meeting. Mrs. Kinsey Keveren presided at the business portion. Activities discussed were serving farm sale lunches, serving the men's dinner and the Idaho conference to be held in February.

Additional sessions for children in grades one through six are slated to begin Jan. 25 and meet for nine sessions. Study classes now in progress are "Safe in Bondage" by Wesleyan Guild members and "Basic Christian Beliefs." The latter study met Monday at 1:30 and 7:30 p. m. and will continue for three more sessions.

Mrs. Rolland Laurance led devotions and Mrs. Paul Ludlow presented the program on home missions. Three ladies were "portraits," representing women who were outstanding in the beginning of home missions. A panel of six members represented the executive secretaries responsible for administering the work of women's division in home fields. A film on work done by the deaconess concluded the program.

Mrs. Russell Cochrun and Mrs. W. D. Holcomb were hostesses. Twenty-two members and two guests, Mrs. Christine Strom and Mrs. Ethel Harris of Belmont, S.D., were present.

SCOUT TROOP 81 ELECTS TRUDY OLSEN AS PRESIDENT

Girl Scout troop 81 met Wednesday at the Episcopal church. Marcia Jackson presided during the business meeting.

New officers elected were Trudy Olsen, president; Stephanie Wilson, secretary; and Lorraine Wilson, treasurer.

...the only car in its field beautifully built to go...

miles between lubrications

30,000 is the most famous number of the year. It's every '61 Ford owner's license to save. How can Ford do it? Conventional chassis lubrication fittings have been replaced with metal plugs that help protect each lubrication point against abrasive mud, dirt and dust. And then, for only about \$4 and about 20 minutes your Ford is ready for another 30,000! This is just one of the many ways the '61 Ford is built to take care of itself. Your Ford Dealer can show you more.

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF
Lubricates itself—You'll normally go 30,000 miles between chassis lubrications (which cost only about \$4.00 and take about 20 minutes) because Ford has replaced conventional grease fittings with a sealed-in lubrication system.
Cleans its own oil—You'll go 4,000 miles between oil changes because Ford's Full-Flow oil filter gives you filtration through fibers... trapping more dirt than any other type of filter made.
Adjusts its own brakes—New Truck Size brakes adjust themselves—automatically.
Guards its own muffler—Ford mufflers are double-wrapped and aluminized to last three times as long as ordinary mufflers.
Protects its own body—All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing the body panels beneath the doors.
Takes care of its own finish—Just wash and clean Ford's new Diamond Lustré Finish and it continues to glisten like new. It never needs waxing.

Only FORD is beautifully built to take care of itself
