Jaycee 'Operation Find-Out' Survey Begins Door-to-Door Monday Evening

Beginning Monday, Feb. 13, some 500 homes in Nyssa will be visited by members of the Nyssa Junior Chamber of Commerce as they begin operation "Find-Out." Co-chairmen Paul Hirai and Dr. David Sarazin announced this week that the door-to-door phase is the initial step in the area-wide survey the Jaycees are conducting and should take about 10 days to complete.

Local PTA Group To Hear Teenage Panel Discussion

Looking to the future and with hope in their hearts, Alice Birney and Phoebe Hearst met with a small group 64 years ago to organize what has now become the National Congress of Parents and Teachers. Their goal was to secure for all children what the wisest and best parents want for their own offspring.

The Nyssa unit, together with local units all over the United States, Japan and Europe, will be holding Founders' day meetings this month, honoring these two women.

The ladies' dream did not go unheeded, for what started as a small group of hopeful mothers has grown to an organization comprising many hard working, willing parents and teachers to be found in various communities.

The PTA is now engaged in one of the most important business enterprises in the world, that of helping children grow in freedom and dignity and to become useful, happy, responsible citizens. The current theme is "Strengthening the Home, Source of Our Nation's Greatness."

Mrs. Leslie Ballantyne will speak briefly on the subject at tonight's PTA session, which will be held at 8 o'clock in the cafeteria. There will be a table displaying literature and a plate for an annual silver offering.

Mrs. Bill Wilson, program chairman, has arranged for a panel of teenagers, under the direction of Lawrence Schwarz. The five selected from his speech class have chosen as their topic, "Problems of PTA as Related to Schools and Parents."

Refreshments will be served. The public is cordially invited to attend.

Specialist From OSC To Speak at Adrian PTA Program Tonight

Adrian PTA program which was scheduled for Feb. 16 has been set ahead one week and will be held tonight at 8 p.m. in Adrian grade school. Roberta Frasier, family life specialist from Oregon State college, will be guest speaker. Her subject will be "The Family Cycle."

AKH and Big Bend extension units will assist with refreshments. The public is invited to attend this meeting.

Emil Stunz Gives Legislative Report; Discusses Many Bills of Local Interest

By Representative Emil Stunz
We are now beginning the fifth week of the 51st session. The bills are coming out of committees faster and as a result our daily sessions are lasting until noon each day. Soon we will be having afternoon sessions.

I will now refer back to some of the bills that I commented on in last week's report. Many people at home have been writing to me about these bills.

Status Given on Bills
HB 1010, relating to tax on inventories. The status of this bill is unchanged. Hearing date is set for Feb. 20.

HB 1034 and 1036 have to do with the taxing of trees, shrubs and growing crops. In further explanation of these two bills: HB 1034 leaves NO exemption on crops while HB 1036 leaves only trees and shrubs unassessable. A hearing was held on these bills and as yet they are in committee.

Some 200 farmers attended the hearing at which Sen. Leth of Polk county had this to say, "Farmers are paying all they can and passage would automatically result in increased farm taxes." He explained that assessing would be made on crops growing on land and that these change from year to year and that even the same crops change greatly in value in short periods of time. Cost of administration would be prohibitive as it would take an army to keep assessed valuation of crops up to date.

Ditch Rider Bill Tabled
HB 1042 which would put ditch riders under a 40-hour week was tabled in committee.

HB 1239 relates to marketing of agricultural commodities and encourages producer negotiating associations, deals with unfair marketing practices, etc. I believe that this bill will be of interest to many people in our area. There will be a public hearing at the capitol at 7:30 p.m. Feb. 13.

Our bill which aimed to shorten the legislative session to 90 days was amended in committee to read 100 days and then was defeated in the House by two votes.

HB 1097, which would have allowed school boards to admit only children who were six years of age as of July 1 into the first grade if they thought it was a good idea, fell by the wayside in committee Friday after a public hearing at which many mothers and fathers voiced their views on the subject. There was only one dissenting vote in the committee and that by the chairman who is a school teacher. The bill had the support of the OEA and the Association of Elementary School Principals.

A bill has been introduced that would require that notices be sent to relatives of persons applying for welfare assistance. These notices would inform the relatives that they might later be liable to repay the State Welfare commission in welfare payments.

New Manager

GLADE CHADWICK
... of 806 North Second has been appointed manager of Oregon Concrete Products Nyssa plant. The plant is in full-time operation and features ready mixed concrete for ditch lining, pit silos, feed lots, driveways, basements, patios and all concrete needs. Chadwick needs no introduction to Nyssans as he has been a resident here for a number of years and active in many organizations.

Erickson Reports On Pending Bills At Chamber Meet

Dellin Erickson told the Nyssa Chamber of Commerce Wednesday that legislation is pending on both state and national levels that would vitally affect the operations of all retail merchants and other small business men.

He enumerated the wage and hour bills that had been introduced to bring the minimum wage to \$1.25 an hour with amendments concerning overtime and work performed on weekends and holidays, labor-sponsored bills that would deprive employers of managerial rights, and workmen's compensation laws.

It was his suggestion that all concerned should write to their congressman and let their views be known, whether they wished more governmental control with the corresponding increase in taxes or if they desired less control with people doing more of the things now being done for them at federal expense.

Erickson also warned the group against recognition of Red China and dealing with Communistic nations. "They may want peace," he said, "but on only their own terms. There is no such thing as coexistence."

It was announced that Malheur County Development association would meet at Moore hotel in Ontario tonight (Thursday) at 8 o'clock and the Idaho-Eastern Oregon Development council will meet at Emmett next Monday at 8 p.m.

Promotions listed for the coming year were Easter egg hunt in April in cooperation with the Jaycees, \$2 day in June, rodeo in July, back-to-school day in August, crazy day in September, music festival day in October and Santa Claus day during Christmas season.

W. L. McPartland said March 2 had been tentatively set as date for the annual C of C banquet with Nephi Grigg as speaker.
