WHAT'S THE BIGGEST VALUE IN APPLIANCES?

That's an easy one—the electricity that runs them.

In fact, while most prices have been going up, the average price of your electricity per kilowatt-hour has been going down!

And what a willing worker it is, for your whole family... helping feed, clothe, entertain, clean, illu-

minate, inform. Not only making easier, but making possible many of the activities we've come to take for granted.

And when you need more help—just plug in a new appliance! You'll find that the more you use your electric service, the greater the value... the bigger the bargain.

IDAHO POWER
Electricity... Does So MUCH—Costs So LITTLE!
