speed up for profit...

Now the INTERNATIONAL V-8 is
standard equipment
on light and medium duty trucks

A V-8 so tough, dependable, light, efficient and easy to maintain that in overall cost it rivals the economy of an in-line six. The added zip of an INTERNATIONAL V-8 engine promises higher average road speeds for more trips per day. And trips earn profits. The INTERNATIONAL V-8 alone was designed from scratch as a truck engine. For example—the water-jacketed intake manifold (an International exclusive) pre-heats

fuel mixture for more complete combustion, for greater fuel economy and far smoother idling.

Because they're designed for endurance, any INTERNATIONAL V-8 may be pulled off the line and subjected to a 1000 hour full-load, full-throttle test—AND PASS! This assures you of day-to-day dependability and year-in-year-out durability in your trucks. See us today about trucks...we know them!
