You Can Still Buy Better at Home

A customer came into Saager's Shoe Shop recently and said to Herb Saager, as he pointed to a pair of shoes marked \$9.95, "I can buy the same shoes from a mail order house for \$8.99."
 "Okay," said Herb, "I'll sell you the shoes for \$8.99 and 54 cents postage."
 The customer paid these amounts and reached for the shoes, wanting to try them on.
 "No," said Herb, "I'll put them on the shelf and you can call for them in 10 days, as it would take that long for your mail order to return and you don't try on the shoes in the catalogue."
 Returning 10 days later, the customer was given his pair of shoes, neatly wrapped and with his name on the package. He sat down to try them on.
 "No," Herb said, "You take them home and try them on as you would a mail order."
 The next day the customer returned and asked for another pair half size larger.
 "Okay," said Herb, as he wrapped up another pair, "and that will be another \$1.08 for postage both ways. We'll put them on the shelf and you can call for them in 10 days, as it would take that much time to make the exchange with the mail order house."
 The customer shook his head and said, "Herb, you win. How about you giving me a good fit in those shoes right now and we'll forget all about mail order houses."
 Moral: The customer gets his shoes fitted properly, Herb gets his regular price, and the customer's money stays at home where it is working for all of us.

Ford introduces for 1962 two distinguished new series: Galaxie & Galaxie/500

Enduring elegance... with the power to please

With Thunderbird styling . . . Thunderbird power . . . and quality craftsmanship that sets a new industry standard . . . the 1962 Ford Galaxies give you every essential feature of far costlier luxury cars.

Swift as a rumor, silent as a secret, Galaxie '62 has the timeless distinction and talent for travel of the Thunderbird that inspired it.

Every quick quiet mile whispers: here is a new standard of quality. And every luxurious detail confirms it.

This is the car that introduces twice-a-year maintenance. Routine service is reduced to 30,000 miles on many items such as major lubrications, twice a year or 6,000 miles on the rest.

We suggest you see the new Galaxie and Galaxie/500 (shown above) for yourself. We are confident you will agree: it's pointless to pay more—or settle for less.

Now . . . twice-a-year maintenance reduces service to a minimum!
