From where I sit... by Joe Marsh

Friendly "Enemies"

Just about my closest friend in town is old Colonel Harmon, our banker. Yet, when I was a lot younger and had just started the *Clarion*, I actually thought he was my enemy!

Whenever I wrote an editorial, there was sure to be an angry letter from the Colonel, taking the opposite side. Seemed pretty clear he'd just as soon I was out of business.

But in the Depression, when it looked like the *Clarion* would have to shut down, it was Colonel Harmon who offered the loan that kept me going. Startled, I asked him why. "Well," he growled, "just because I don't agree with a man, doesn't mean I don't value his opinion. Besides—if you'd closed up, who'd I have to argue with?"

From where I sit, one of the wonderful things about America is the way people respect each other's opinions. For example, the Colonel doesn't happen to share my preference for a glass of beer, but he understands I have a right to feel the way I do. It's tolerance like this that keeps our friendship "in business."

speed up for profit...

Now the INTERNATIONAL V-8 is standard equipment on light and medium duty trucks

A V-8 so tough, dependable, light, efficient and easy to maintain that in overall cost it rivals the economy of an in-line six. The added zip of an INTERNATIONAL V-8 engine promises higher average road speeds for more trips per day. And trips earn profits.

The INTERNATIONAL V-8 alone was designed from scratch as a truck engine. For example—the water-jacketed intake manifold (an International exclusive) pre-heats fuel mixture for more complete combustion, for greater fuel economy and far smoother idling.

Because they're designed for endurance, any INTERNATIONAL V-8 may be pulled off the line and subjected to a 1000 hour full-load, full-throttle test—AND PASS! This assures you of day-to-day dependability and year-in-year-out durability in your trucks.

See us today about trucks... we know them!
