Writer Discusses 'Evil of Our Time'

Dear Editor:

One of the growing menaces of this age is taxation. While taxation may not be enemy number one as a destroyer of our private enterprise system...

Some people will call all of this socialism, progress, but let's call it what it is—conversion from private enterprise to a socialistic tax slavery and the taxes you pay is the price you pay for socialism.

Cites Tax Dodging

Another folly which consumes endless amounts of your tax dollars is the fallacy of allowing organized groups, such as religious cults, or, in some cases, bona fide churches, the privilege of dodging taxes...

Public Works Increase

As the dollar erodes away, wages, prices and taxes spiral up and up. But the erosion of the dollar is but a minor part of the cause of high taxes.

First we wanted roads, graveled roads, then surfaced highways, and then super, super highways costing billions of dollars.

Then there is the public building bonanza, million dollar school housing, a new capitol buildings, hospitals, post office buildings, court houses, colleges and asylums.

Let's not forget reclamation, flood control with dams and more dams, harbors, subways, huge water conduits and sewer systems.

Bureaucracies Flourish

Let's not forget the huge bureaucracy which is flourishing on your tax dollars. Many of the bureaucrats are about as useful as two tails on every dog.

Remember that private enterprise never taxed anyone but gave the people legitimate useful jobs. Under the private enterprise system you spend your money for the things you want and need...

The members of the Nyssa Ministerial Association would like to express to you our appreciation for the very excellent Church Directories which you have printed for us.

I have been specifically requested by the Ministerial Association to express their appreciation in this regard but I know that I can also, on their behalf, state our appreciation for the constantly fine cooperation you have shown all of us in the area of publishing church items and news.

While it may be human nature to be too often critical and too seldom laudatory, this is a deliberate and sincere expression of commendation from us to you.

HOTTEST NOVEMBER IN FORD HISTORY!

And here's what started the heat wave!

Last month more Americans bought Fords than in any November in history. The blazing success of the long Ford line was end-to-end, all across the country and up and down it, too.

NOW THERE ARE FOUR CLASSES OF CARS ...AND ONLY FORD HAS ALL FOUR!

COMPACT CLASS: FORD FALCON
This class includes cars with 106- to 114-inch wheelbases. Most popular by far (a million happy owners!) is the Ford Falcon. Falcon is America's lowest-priced* 6-passenger car, set a 25-year record for Six or Eight in last spring's Mobilgas Economy Run, gives you a choice of 18 models, including the Futura and new Falcon Squire wagon.

FAIRLANE CLASS: FORD FAIRLANE
The Ford Fairlane is the first member of a new class which combines the advantages of both compacts and big cars... you get big car room, ride and performance... compact savings and maneuverability. Priced below many compacts, Fairlane even rivals some in gas economy. Has twice-a-year maintenance introduced by the Galaxie.

FULL-SIZE CLASS: GALAXIE BY FORD
The class for families who want big car comfort, performance and prestige. Value leader is the Ford Galaxie—which has every essential feature of far costlier fine cars. With the optional Thunderbird 390 V-8 engine, a Galaxie will outperform America's most expensive luxury cars. Requires servicing only twice a year, or every 6,000 miles.

LUXURY CLASS: FORD THUNDERBIRD
The top class—cars for people who want the very finest. First of the trim-size luxury cars, the 4-passenger Thunderbird is the most distinctive car in this class. Its styling set the trend for an entire generation of cars and now finds a new elegance in the Landau. And Thunderbird's performance is just this side of flight.
