**Christmas Seals Mean Protection**

By ANNE STRINGER  
(Nyssa High Journalism Student)  
Inside an envelope that reached your home not long ago was a sheet of Christmas seals, each portraying a cheerful family scene.

Someone else's family? Squint a little and you may be surprised at what you see. That could be your family trimming the tree, singing Christmas carols, having a musical get-together or hanging a wreath.

And when TB strikes, it may not be someone else's family; it could very easily be your own, if you don't heed the safety precautions.

Make sure you and your family get the needed rest and essential foods to build up resistance against this dread enemy.

TB can strike anywhere in the body without warning. This disease is also very contagious; it can be contracted very readily. But it can be cured and prevented.

So heed the advice of your Christmas seals, "Protect the Family Circle," and have a check made once a year.

**Soviets More Tolerant As Santa Claus Wins**

After unsuccessful efforts to keep Christmas from being celebrated as a Christian holiday, the Communist regimes of Russia and the countries of Eastern Europe have recently shown a more tolerant attitude toward traditional observances. Father Christmas, the Russian Santa, is back again, having refused to become Father Winter, the name Communists attempted to give him.

Another gifts bringer in Russia is a legendary old woman called Babuska (grandmother). Legend says she mis-directed the Magi when they asked the way to Bethlehem. She repented, and to atone she went about the world Christmas Eve looking for the Christ Child and distributing gifts to children.
