June Is Dairy Month . . .

WE SALUTE THE
QUEEN OF THE PASTURE
and we
CONGRATULATE ALL DAIRYMEN
Who Have Made Malheur County Number One
Among Oregon Dairy Producers!
NOW . . . You Can Grow 320-Pound
Calves in Only 4 Months!

Purina Calf Chows are easily digested, highly palatable . . . practically eliminate nutritional scouring and death loss.

Now you can raise 320-pound heifer calves in only 4 months time.

In recent feeding work at Purina's Research Farm, 89 calves were fed exclusively on PURINA'S Nursing Chow—Calf Startena Program. At 4 months of age the Holstein heifers in this group averaged 320 pounds . . . a full 60 pounds heavier than is considered "good" for calves of that age. (Average as reported in Morrison's "Feeds and Feeding.")

And, these calves put on their vigorous, healthy growth for less than half the cost of whole milk feeding!

Simple . . . Easy . . . Cost-Cutting—Purina's Calf Program takes advantage of the life-stimulating powers of colostrum . . . It provides the extra vitamins, minerals, energy and disease protection not found in whole milk.

HOW THE PURINA CALF PROGRAM WORKS—Colostrum for the first three days . . . Gives your calf Nature's miraculous disease-resistance factors. This store-

house of energy and antibodies has no substitute.

Nursing Chow (Purina) for the next 30 days, plus Calf Startena . . . Gives calves minerals, vitamins, energy and disease protection not found in whole milk.

Calf Startena (Purina) for the next three months. It is during this "fast growth" period that Purina-fed calves make gains up to triple their birth weight—build strong bones, smooth coats. At four months, they're big, rugged heifers, already half way to breeding weight.

PRACTICAL DAIRYMEN AGREE—Practical dairymen throughout the country have often stated: "My calves really go for these Purina Calf Chows . . . they have proved easily digestible . . . Nutritional scouring and death loss have been practically eliminated."

Ask us about the facts on Nursing Chow and Calf Startena. Order some. Aim to grow big, husky calves in only 4 months on your farm!

ELECTRIC SERVICE 'Round the house . . . round the clock . . . your family's biggest value

Ever count the number of ways you put electricity to work in your house? We bet you'd really be surprised!

There are more than 50 ordinary household uses of electric service—ordinary because they are common to so many modern homes—extraordinary in their contribution to better living.

Here in the Snake River Valley of southern Idaho and eastern Oregon people do live better electrically. The average home served by Idaho Power uses nearly twice the amount of electricity used in the average home across the nation.

Electric rates here are still a third below the national average. Your electrical standard of living is high—and it's a bargain!
