It happened 100 YEARS ago

The oldest incorporated trade association in the country, the United States Brewers Association, was organized in 1862 . . . the same year that

IN OREGON, the Oregon-California Stage Line opened the run between Portland and Sacramento. After arriving in Portland, Oregon's rugged pioneer travelers often relaxed with a sparkling, refreshing glass of beer.

For even then, beer was Oregon's traditional beverage of moderation. Beer still provides enjoyment for folks in Oregon and a good living for the employees and suppliers of the Brewing Industry.

TODAY, in its centennial year, the United States Brewers Association still works constantly to assure maintenance of high standards of quality and propriety wherever beer and ale are served.
