

Labor Camp Instruction Continues; Evening Recreation Leaders Needed

By Mrs. Wilson Witt

NEWELL HEIGHTS — Classes in language and arithmetic continue to be held Tuesday evenings at Adrian labor camp with good response reported. Saturday evenings are family nights with fun for everyone.

Once a month on Wednesdays, Mrs. Edna Blaylock, county nurse, holds a clinic at the camp, in which many residents participate.

Young people (including young adults) who would like to help with a recreation program on Monday, Wednesday or Thursday evenings are asked to contact Mrs. Jake Borge or the Rev. Gerard Kuiper.

Mr. and Mrs. Charles Krieh and sons of Rupert, Idaho, arrived Thursday evening to visit Mr. and Mrs. Dick Krieh and family. The Idaho couple went to Baker Friday to a state archer shoot while the two boys stayed at the Dick Krieh home.

Presenting the Tornado-OHC, America's first overhead camshaft engine designed specially for commercial vehicles.

WHAT IS AN OHC ENGINE? In a conventional engine, the valves are on top—the camshaft, which operates them, down below. The Tornado-OHC has overhead valves and an overhead camshaft—which is what OHC stands for. The simplicity of this system—it has 36 fewer moving parts—makes it much more efficient. It produces 33% more power with up to 25% better gas economy—needs less maintenance and lasts much longer.

COME IN AND TEST DRIVE THE TORNADO-OHC ENGINE—now available in 'Jeep' Pick-ups, 4-wheel drive Utility Wagons, 2-wheel drive Station Wagons and Panel Deliveries.
