QUALITY

. . . Is Our First Consideration!

Quality means many different things to different people. It could mean, for example, the degree of excellence of the product itself . . . the freshness and goodness of the meats and produce . . . the careful selection of ingredients and the Quality control of the products on the shelves. All of these things mean Quality, but at Wilson's it means something more. It means the attractiveness and cleanliness

of the store . . . good housekeeping in every department. It means the friendly, pleasant atmosphere and the willingness to help. It means the variety, the convenience and, of course, it means the price. Outside show is a poor substitute for inner worth. You'll find that at WILSON'S SUPER MARKET the Quality in every detail and respect is more than just "Skin Deep!"
