Knife and Fork Members to Hear Noted Traveler

ROBERT KAZMAYER

An inside glance of what is presently going on internationally and what our State department is going to do about the many confusing conditions here and abroad will be the main course set before members of the Knife and Fork dinner club at their meeting Sept. 24 at East Side cafe in Ontario.

Serving the tasty dish will be Robert Kazmayer, author, lecturer and analyst, just back from another summer journey to Europe and the Middle East where he observed startling and changing conditions and the attitude of the men on the street toward the United States and its activities.

Kazmayer was born in Rush, N.Y., in November, 1906. He went to school in western New York and then attended the University of Rochester and Colgate Divinity school. He had intended to make the Methodist ministry his life's work and did, as a matter of fact, fill several churches in and about Rochester. In 1938 he resigned from the Greenstone Methodist church in order to devote his entire time to writing and speaking.

The world is quite a familiar place to Bob Kazmayer. He goes abroad every summer now but before he started conducting the Kazmayer Seminar Tours, he used to wander about quite a bit. One year would find him in South America, a second in Asia and a third in Africa and a fourth in Europe.

He writes a monthly news letter under the title of "Things to Watch and Watch For."

Tough new '63 Chevrolet Trucks are here!

...THE ONES THAT WHIPPED THE BAJA RUN...TOUGHEST UNDER THE SUN... TO SHOW THE WORTH OF NEW ENGINES, FRAMES AND SUSPENSIONS!

Sometimes the caravan crept along for hours in low gear. It took 17 days to go 1,066 miles! This is the road near Loreto.

Millions of years ago nature fashioned a proving ground for trucks that man can never duplicate. Today it is known as the Baja (bah' hah) California Peninsula, Mexico.

These pictures give you only a bare idea of the place. The road is fine for 140 miles below the U.S. border. Then the beating begins. Rocks and hard-baked ruts bang, jab and jerk the trucks from stem to stern. Loose sand makes them struggle and strain. Dust chokes them. Heat roasts them. Rivers drench them.

The Baja Run took this Chevrolet truck caravan 17 days to go the 1,066 miles.

All the trucks performed magnificently. Not one was forced to drop out because of mechanical difficulty.

Trucks that can take this kind of beating can take on your toughest truck jobs. Come in now and see tough quality-built '63 Chevrolet trucks with all their new improvements.

See the "New Reliabilities" now at your Chevrolet dealer's!
