## Kill alfalfa weevils with Heptachlor!

Make up to \$15 per acre more from your alfalfa by controlling alfalfa weevils with Heptachlor. It costs about \$1.00 per acre, but increases yields ½ ton or more. Early season control kills overwintering adults. This prevents larvae from damaging leaves and crowns later on. You get healthier, longer-lived stands, and more high protein hay. Available in spray or granular form. Easy to apply. Recommended for western states. Costs less than any other recommended insecticide. Apply Heptachlor now—before new growth of alfalfa exceeds 2 inches.
