Dig your toes in the cool, wet sand

Who can resist it? That exuberant urge to peel off your shoes and go joyfully down to meet the sea. You don't want anything, ever, to spoil that lovely beach... neither do we.

So today, with advanced drilling techniques, we seek oil beneath beaches without marring their beauty with equipment and derricks.

Instead, the oil is brought up by "slant drilling" from a well located far away, often out in the sea. On the beach, you don't even know it's happening.

So dig your toes in the cool, wet sand. Enjoy your lovely seaside playgrounds. We cherish their beauty, as you do.

Planning ahead to serve you better
