# TRITHION<sup>®</sup>

controls pea aphid,  
two-spotted mite,  
other pests

Trithion means *more profit* for growers of legume seed crops in southern Idaho and southeastern Oregon! Trithion is so persistent and so broad-range in its action that *one application* cleans up many major pests for weeks. It is one of the very few materials that controls both aphid and mite pests. Once applied, Trithion is relatively harmless to bees; they can return to work in fields treated with Trithion with little chance of injury. See your Stauffer dealer for local recommendations.
