

Nyssa Bulldogs Down Vallivue 20-13 For Fourth Win of Football Season

By FRANK PARR

The Nyssa Bulldogs gave a good offensive show early in the first quarter and then again in the second half to win their fourth game of the grid season Friday evening over Vallivue high school by a score of 20-13 at Caldwell.

The winless Falcons in their first football season have been improving each week and looked very good at times during this hard-fought game.

Advantages of Sports Explained by Morford

By COACH BOB MORFORD

Is football too dangerous? The question often posed by parents is whether they should allow their boy to participate in junior or senior high school football programs. Another question which frequently arises is whether it is better for a student to make "A" grades than to put in extra time in athletics which might possibly lower his grades to a "B" average.

Football is not a dangerous sport when played under the supervision of school coaches and with proper equipment.

Accidents Fewer

As Coach Lynn Waldorf so tersely stated a few years ago, if the same number of teenagers were NOT practicing for football, more of them would be injured or killed, as in auto accidents, than hurt on the gridiron.

Nowadays, thanks to dental aids, hardly a single player even chips a tooth during the entire football season.

And the few injuries that occur are usually sprained ankles or maybe a broken leg—not fatal injuries.

Football teaches them play. It also gives the boys excellent physical drill, which in itself is admirable health insurance for a longer life.

And it meanwhile broadens the boy's perspective so he is not a narrow, horn-rimmed glasses introvert all his life with little contact with reality.

We'd have far better teachers and preachers if they had all played football or engaged in other competitive athletics during high school and college.

Health Insurance

Our medical and dental colleges are beginning to realize, too, that a "B" student who has a well-rounded personality from athletics and social leadership on the campus, is usually superior to an "A" student who has a shut-in personality.

Besides, I am not joking regarding the health insurance that athletics offer.

Heart trouble is now the Number One cause of death in America, producing three times as many fatalities as all forms of cancer combined.

An athlete tends to have a larger heart, which means his two coronary arteries are likewise bigger.

Thus, as the coronary arteries grow thicker from hardening, due to old age, they don't get plugged up as readily.

For when a tiny blood clot flows along a coronary artery, it is not as likely to plug up the artery if the latter is larger. So please remember that exercise, especially running and distance swimming, produces larger hearts.

Heart Beats Slower

An athlete's heart thus doesn't beat as fast as the heart of the non-athlete. A two-miler may thus have a normal pulse rate of only 66, instead of 72.

His larger heart thus gets six additional rest periods or "heart naps" every minute.

Since he doesn't race his human "motor" as fast as does the non-athlete, it doesn't wear out as rapidly.

So encourage your children to build up more rugged hearts during youth, especially if they maintain a "B" average meanwhile in their studies.

Athletic coaches also veto liquor and tobacco, so your sons benefit from that positive instruction, too.

Extra Point on Second Try
Nyssa was offside on the first try for point, and then Morinaka skirted left end for the conversion. The score stood 7-0, Nyssa.

After an exchange of punts, Vallivue took over and went 70 yards in 11 plays for a touchdown. The extra point attempt was good and the score was tied at 7-7. That ended scoring in the first half.

After taking a punt midway in the third quarter on the Vallivue 49, Nyssa went straight downfield for her second score, with Burbank plunging over from the 2.

The Bulldogs were again penalized on the try for point and again Morinaka carried 7 yards for the extra point for a 14-7 score.

Falcons Make Last Score

Nyssa kicked off to Vallivue and Ward, Vallivue quarterback, turned on a passing attack that netted 60 yards in five plays. The Falcons made their second score but failed to get the extra point. Score was 14-13 in favor of the Bulldogs.

Then came a controversial on-side kick. The officials erred in allowing the Falcons to kick over and the incident fired up the Bulldogs. After exchanging punts the Nyssans turned on their offense again and Morinaka scored on an 8-yard gallop. Burbank went over for the extra point. That ended scoring for the evening and Nyssa won 20-13.

Backfield Outstanding

Mayden, defensive specialist, took over on offense for the injured Rudy Atagi and played an outstanding game, as did Morinaka, Burbank and Brown in the backfield.

The line was good most of the time except for the second quarter when the Falcons seemed to penetrate at will. Coach Bob Morford must have straightened the boys out at halftime and they came back strong to play a good game.

Ward was outstanding for Vallivue. He is the son of Conley Ward, former Nyssa high school student who now teaches at Caldwell high school.

The Bulldogs play the last game of the season Friday evening on their home field against Meridian. The local boys have played interesting ball all season and a good crowd is expected to see them wind up the 1963 season.
