Gardiner-Jones Rites Performed In Local Church

A 7 o'clock evening ceremony performed Nov. 16, 1963, in St. Paul's Episcopal church united Ellen T. Gardiner and Thomas G. Jones.

Arrangements of fall flowers provided the altar setting for the double-ring rites performed by the Rev. Armand Larive, pastor of the local church.

The bride was given in marriage by Fay Corn and wore a beige ensemble, moss-green accessories and white orchid corsage. Witnessing the rites were Mr. and Mrs. Murl Lancaster, Mr. and Mrs. Corn.

A dinner in the Rose room at the Moore hotel in Ontario followed the Saturday evening ceremony.

The new Mrs. Jones attended Colorado A and M college, Nampa Business college and plans to continue her work in graphology. Her husband attended the University of Utah, LDS Business college in Salt Lake City and is local agent for the Union Pacific railroad. The Jones' are at home at 309 Park avenue in Nyssa.

Feted on Anniversary

Mr. and Mrs. S. P. Bybee were luncheon guests last Thursday of her parents, Mr. and Mrs. H. E. Chamberlain. That evening they were dinner guests of their son-in-law and daughter, Mr. and Mrs. Owen Froerer and family. The dinners were in observance of Mrs. Bybee's birthday anniversary.

Reporter Previews Winter Fashions

(From the Nyssa High Bulldog) "Who's that?" as all heads obviously turn to follow that lovely creature walking down the hall.

Yes, that so-called creature (?) could be any one of NHS's girls, because this year's winter fashions have turned into many new and different styles that accent any girl's figure.

Catching the eyes of students this year are the new A-line jumpers and coordinating blouses to add to the outfit.

To add class as well as attractiveness to any outfit, girls have found that simple jewelry gives the final touch.

The little-boy look has been a big thing in our classrooms with knee-high stockings, elbow patches and suspenders with pleated or wrap-around shirts.

Stretch pants which are especially appealing (to the boys) have been very popular for the new sporty look.

But wait a minute! What about the sharp-looking boys roaming our halls? Yes, they're just as clothes-conscious as some of the girls.

This year boys are wearing different styles, too; a lot of the boys are wearing the new tab collar and still some are dressed in white shirts which add much class to our school.

Yes, now maybe you can answer that question the next time you hear someone softly whisper, "Who's that?" Could that someone possibly be you?

Work Smarter . . . Not Harder

By BERNICE STRAWN, Extension Home Management Specialist

USE OF DISINFECTANTS IN LAUNDERING

. . . was discussed in this column several months ago. More new information has just been received.

Researchers at the U.S. Department of Agriculture have continued their tests and have passed along these results.

Textile bacteriologists studied the laundry of a number of families and found bacteria which cause skin, ear and respiratory infections in many cases. These bacteria were not killed by hot water and detergent.

They found that liquid chlorine bleach or pine oil disinfectant would greatly reduce the bacterial count in the wash and rinse water.

If you have sickness in the family or use a self-service laundry, it's a good idea to use bleach if the fabrics will take it—or some other disinfectant.

YOUR BODY PRODUCES

. . . about one cup of moisture during a night's sleep, so we are told. Sheets and mattress pads absorb this moisture. Don't forget to launder the mattress pad every few weeks. If it's the quilted type, take it out of the dryer while still damp. Starch it to size and finish drying on a line.

NO WONDER SCHOOLS ARE BULGING!

. . . Did you know that over half the people between 5 and 34 years of age are enrolled in school? Millions more are being taught where they work. Classes are also conducted by some labor unions.

Here in Oregon, 22,000 women attend monthly lessons through OSU Extension service. One popular subject is consumer education. Homemakers learn how to buy such products as meats, laundry aids, ready-to-wear, life insurance and what to look for when shopping for credit.

Call your county agent, if you would like to attend these sessions.

Ideal Vegetable Seasoning

Beef stock base is an ideal seasoning for many vegetables. For instance, cube and boil potatoes in water that has been seasoned with beef stock base.

Removal of Blood Stains

To remove stubborn blood stains from clothing, first soak in cold salt water (1/4 cup of salt to 2 cups of water) and then wash in warm suds. Do not use hot water first; it will set the stain.
