From Ontario, Vale, Adrian and Nyssa, 12 seniors were chosen to act as a jury. Ontario and Vale students impersonated the plaintiff and defendant for the trial.

Professionals taking part in the trial were Gene Stunz as the defendant's attorney, Max Taggart as the prosecuting attorney and Jeff Dorroh, Jr., district circuit judge. Jim Cox of Ontario was in charge of the program.

An automobile accident was the case for the trial. The seniors, who were allowed to reach the verdict, arrived at the opposite conclusion than had the actual jury for the real trial. However, the facts had been changed slightly.

PERFORMANCE AND ECONOMY

Chevron gasolines give you both. First, they're blended for your climate, to give you faster warm-ups. They contain Methyl* — first new antiknock compound since Ethyl* — to step up octane performance.

Second, they have Detergent-Action, the carburetor-cleaning additive that dissolves gums and dirt deposits, protects the fuel system against rust. These features cost you nothing extra.
