'Keep Pop in Good Physical Shape,' Is Message From Heart Association

As Father's Day approaches, other members of the family will be whispering behind his back, holding secret conclaves to find a special way to pamper Papa.

A fairly typical family plan includes breakfast in bed for dear old Dad, his favorite menu for Sunday dinner, some gaily wrapped gifts and a 24-hour reprieve from his usual chores—no matter how much he enjoys doing them.

Father's Day would be a good time for the family to enter into a conspiracy to keep the head of the house in good physical condition all year around and for many Father's Days to come. All fathers should get some form of daily exercise apart from their work, according to the Oregon Heart association.

Daily exercise prevents muscles from turning into marshmallows, helps work off the annoyances and frustrations of everyday life. It keeps Dad a solid citizen rather than a softie. In short, daily exercise is good for his heart and his health as well as his appearance and state of mind.

Most important of all, the family might conspire to help Dad find the time and opportunity for exercise every day of the year. If he's been especially sedentary in his habits, suggest a physical exam before he tackles strenuous sports. Even after the checkup, convince him that a gradual approach makes sense. Don't let him literally knock himself out trying to impress little brother.

Putting Pop on a pedestal is fine—for one day. But he can get out of condition very fast up there not moving a muscle!

Children Participate In Varied Activities At Methodist School

More than 60 children were enrolled at Methodist Vacation church school for the week's study of "Jesus, learning about Him and from Him."

Mothers attended Friday morning to view displays, final worship and a coffee hour to meet the teachers. Hostesses were Mrs. Harold Kurtz and Mrs. Cees Hopman.

Kindergarten activities included planting seeds, making vases from plastic bottles, envelopes for hand work and a "nature walk." Primary children made vases from clay, a large Palestinian type house, a diorama with pipe cleaner figures and hand work.

Juniors worked on maps and research, gave oral and written reports and prepared worship material for each morning. The latter groups viewed a film strip on the "Life of Jesus."

A collection of articles, loaned by the Pacific School of Religion in Berkeley, Calif., contained items dating back from 2500 to 3200 B. C. A representative of the school was in the excavating expedition at the buried city of Mizpah near Jerusalem.

The Misses Karen Main and Sheila Huffman were in charge of recreation. Refreshments were provided each morning by moth-

From This Corner...

By T. M. B.

I'm plumb optimistic today and any of you dummies who read this and can't be happy, are either broke or sick!

Stop and think how much congress is doing for us or will do soon! With the passage of the Civil Rights bill we'll have PEOPLE control to go along with CROP control (the latter belonging exclusively to farmers)—the Whites will all love the Colored who will no longer have to violate state and local laws to show their plight.

The preachers can go back to preaching against sin on the local level and we can then get started with the President's WAR ON POVERTY.

Another Garden of Eden?
 If we'll just re-elect our present crop of legislators there are good prospects for a Second Garden of Eden. Civil Rights will eliminate DISCRIMINATION.

The proposed War will eliminate POVERTY—not just here in the U.S. but eventually in the world—yes even for the colored tenants on Mrs. Johnson's Alabama land! Then we have Federal Aid to Education to eliminate IGNORANCE—perhaps Medicare will eliminate SICKNESS—does that leave anything other than SIN?

(There is one other little thing—we haven't raised the pay of our legislators—the ones who are giving us all this. They have very thoughtfully brought the matter up again—only this time they modestly ask for a \$7,500

"WHEN WE RENTED AN ALL-ELECTRIC HOME

We learned how nice electric heat can be!"

MRS. RUDD WITH BARRY AND BRYANT

"When we moved to Twin Falls, we rented a Gold Medallion home. At first we found ourselves waiting for the blast of the furnace that never came. After a time we began to enjoy the quietness, the evenness of heat without draftiness, the lack of soot or dirt. This experience as renters has convinced us. When we buy or build, we want electric heat. If everyone could try it first as we have, everyone would have electric heat!"

—Mr. and Mrs. Clayton Rudd, Twin Falls
