WADE TROST, the rider, and Bruce Hipp, the pusher (photo on left) were first place winners in the soap box car division of the back-to-school parade staged Saturday in Nyssa. Second place winners were John Tensen and Maurice Smith. The cash award for third place went to Mike Smith and Billy Tensen. In the picture on the right, Mardi Tensen, wearing the bonnet, and Jan Church, holding school books and bell, stand in front of their little red schoolhouse, mounted on a wagon which they pulled in the parade. Walls and roof of the schoolhouse were decorated with red and white crepe paper. Sign on the structure reads, "The School Teachers Have Always Been Ready." The two young "school mams" were first place winners in the wagon-doll buggy division. Second place winners in the classification were Lawrence and Carlene Meyer. Third place prize went to Tommy Carrie.

WILL USE OF A "LOW-SUDS" DETERGENT

... solve the problem of foam in waste water, septic tanks and rivers?

No, the residue from low-sudsing products also produces the unwanted foam on waste water. The fact that it will make low suds in the washing machine bears no relationship to the foamability of the residue in the sewage.

New "soft-base" detergents now being developed will disintegrate in waste water and are expected to solve the foam problem. These products have just started to come on the market. After Dec. 31, 1965, all detergents will be of this type but they will still produce suds in your washer.

Will Tell More of Kragero

I think you want to hear more from Kragero when I come home to U.S.A.

Please tell me what hobbies or interests Bud has. I am interested in photos and stamps.

I should like to know some prices of the articles I will need in the U.S., Oregon. Would you please tell me what clothing I will need; it is so difficult to decide everything here. Thank you!

I suppose that you are interested to hear something about my school. There are approximately 500 pupils attending our school. We have about 30 teachers, and my school is the largest but one in our district. (I may call it a county.)

Editor of School Magazine

Last year I was the editor of our school magazine. Although you don't understand reading them, I think you will have fun seeing, so I bring them with me. Would you please say some words about the school which I am going to attend?

The capital in our county is called Skien. It has 15,000 inhabitants. The county is called Telemark, and its size is like the state of Maine, I have estimated. The area of Norway amounts to 125,000 square miles.

Today there is a story about me in the newspaper. They write that I am going to the U.S. as an AFS student. I have been called up for a several times, and people have congratulated me! Oh, it's so exciting!

Well, I'll close now. I hope I have told you what may be of interest for you. I hope to hear from you, if there is time to correspond.

Hope to see you soon.

Yours sincerely,
 ROLF LIER

HOSTS POTLUCK DINNER

Members of the Sunset Valley auxiliary and their husbands met socially for a recent evening potluck dinner at the home of Mrs. Adah Schweizer.

ATTEND CLASS REUNION

The Rev. and Mrs. Ralph A. Lawrence and family attended a reunion last weekend of the 1954 graduating class of Twin Falls. Mrs. Lawrence is a member of the class.

EVOLUTION

Revolution

The world-famous army 'Jeep' vehicle started it all. Then came the evolutionary changes. Sensible changes. Like more ground clearance. Stronger suspension. Weather proof tops. Fun changes. Like pink and white striped upholstery. Fringed sunroofs. Lively colors. A sports roadster. A station wagon — rugged, durable, designed for work and play.

Then came the 'Jeep' Wagoneer. A revolution! The Wagoneer is so revolutionary, it's hard to recognize your old 'Jeep' friend. It's a station wagon. And a looker! You'll be stunned. Slide into that luxurious interior. Beautiful. Comfortable. Visibility unlimited!

Turn the ignition key. You've got an overhead cam engine purring for you. The only one in any American production car. Try that steering. Power.* The brakes. Power again.* The transmission. It's automatic.* Feel that ride. Pure luxury.

And the 'Jeep' heart and spirit are still there. Pull one simple lever and you're in 'Jeep' 4-wheel 'Drivepower.'* Then there's hardly a hill that can keep you down . . . hardly a mud hole that can bog you down. In fact, there's scarcely any driving situation that can get you down. You're free to go anywhere with the traction to pull you through.

*Optional items at slight extra cost.
 DRIVEPOWER is Wagoneer station wagon's new, improved and exclusive 4-wheel drive system.
