Ward Receives Letter From Famed Radiologist, Former Nyssa Teacher

In the "Letters to the Editor" column of the Aug. 13 Journal, a letter was published from Harold J. Randall of International Medical Press, Inc. The correspondent had written

After the parents were introto the Nyssa Chamber of Commerce and the letter was pub- duced by their children, a game lished in the Journal at the request of Ralph G. Lawrence, was played so that they might chamber secretary.

It concerned Edith Hinkley Quimby, 1913-14 Nyssa high science teacher, a famed radiologist now residing in New York City.

Randall was asking for pictures or text materials from long-time residents of the Nyssa area in order to do a "profile" on Dr. Quimby for Roche Medical Image, edited and distributed by him to numerous physicians throughout the United States and Canada.

Audrey Ward, a long-time Nyssa resident, wrote to Dr. Quimby and received a photograph and the following reply which he and the Journal publishers feel will be of interest to a number of readers.

COLUMBIA UNIVERSITY In the City of New York

Department of Radiology Radiological Research Laboratory 630 West 168th Street

October 2, 1964

Dear Audrey Ward, Nyssa.

the other pupils in that old school and that always leaves a deep until the big boom. mark. I used to hear something about some of you from the Boydells, but I don't even know anything about them any more.

for a 50-year reunion is remark- and again my early radium exable. I forget how many of you perience was valuable. I developthere were, but I would have ed the radioisotope laboratory guessed about a dozen. I went here and became a consultant to back to Whitman for my 50th reunion in 1962; we had, I believe, topes-a job which I still carry 10 out of a class of 32 and thought on. that was pretty good.

x-rays and radium and being able any children. When we were to see practical use of one's work young and had little money our in the treatment of those patients, amusements were simple, but as was absorbing and gratifying. I soon as we were able we began have spent my whole professional to travel and have pretty well life in radiation research and covered South America, the Caribbean and Europe, except for Iron Curtain regions. Our next project is New Zealand and Aus-We had intended to go back to tralia. My husband spent two California, but after my husband years in Australia during the war, got his degree he was offered a and at first said he never wanted professorship at Columbia and to go back. Now, however, he is

People ask us why we continue which is the Medical School of to live in New York, when we Columbia University, as professor could pick pleasanter spots. But we've been here 45 years; our friends are here; we are adjusted to metropolitan living; if we want to go away we can just shut the apartment door and leave. We enjoy the theater and the opera, and the many available good restaurants. All in all, we feel that we have been, and are, fortunate in enjoying a good life.

Do give my best greetings to any who remember me. And when you have time, I will appreciate hearing about the peop and the town of Nyssa.

Yours very sincerely, Edith Hinkley Quimby
