Oregon VA Loans Increase in 1964

The Oregon Department of Veterans' Affairs granted farm and home loans to 3,734 veterans last year in the amount of \$41,723,000, Director H. C. Saalfeld reported this week.

This was an 8 percent increase over 1963 when 3,552 veterans borrowed \$38,496,000. Last year's volume makes a total of 48,644 loans in the amount of \$415,996,174 to Oregon's World War II and Korean War veterans since the program started in 1945.

In Malheur county last year, loans were granted to 31 veterans in the amount of \$362,250, compared to 18 loans in 1963 for \$215,400. Since the start of the program, loans have gone to 510 veterans here in the amount of \$3,832,650.

Saalfeld said that of the nearly \$416 million borrowed, veterans have repaid \$254 million in principal and interest. They are repaying at the rate of about \$3.5 million a month, with interest payments alone averaging about \$875,000. Of the more than 48,000 loans granted, 29,116 were outstanding on Dec. 31 in the amount of \$268,175,232.

Bat Facts . . .

It is not true that bats carry common lice or bedbugs, according to Compton's Pictured Encyclopedia. Bat parasites are peculiar to bats and will not attack man.

MAJOR QUANTITIES OF MATERIAL are being used to build Idaho Power company's second 230,000-volt transmission line between Brownlee dam and Boise, as witness this stockpiling scene at Midvale now being duplicated at several strategic towns along the route. Here a crane unloads from a railroad car some of the total 416 reels—each seven feet in diameter and weighing more than five tons—of aluminum conductor for the steel-tower line's two

circuits. Similar stockpiles of conductor, tower sections weighing a total of 7,000,000 pounds, and a total of more than 46,000 insulators are being established at Emmett, Cambridge, Horsehoe Bend, Montour and Beatty to speed the new line's construction. Estimated to cost \$5,500,000, the high-voltage facility will double Idaho Power's energy-carrying capacity between Hells Canyon development and Boise distribution sites.
