## Cross a Wildcat engine with a Buick Special, and what do you get?

### A car with 9 lives and a very businesslike purr.

Why nine lives? You'll find that we build Buicks to last. That's one of the nice advantages Special has in store for you. As to that purr: you'll find it exciting to have a 210-hp. pet around the garage. Just say "scat," exert a slight pressure with the right foot, and it departs with stunning rapidity. If you're wondering how much one feeds a Special with a hood full of Wildcat V-8, remember that it won its class in the Mobil Economy Run last year. (Specials are friendly, as a rule, but they just don't seem to like gas pumps.) We won't tell you about the Special's lean good looks, its velvet ride, its docile handling, its pampering luxury. Take that up with your Buick dealer. (Also, ask him about an even wilder species we've developed: the Special with a 250-hp. Wildcat engine. And a little more **grm** in its purr.)
