#### Why Communism Cannot Win . . .

Political philosophy has been moving toward the communist doctrine in hundreds of countries over the world.

The greatest reason for the acceptance of the social doctrine imbedded in communist propaganda lies in the promise of something for nothing. The rearrangement of wealth. The taking from the rich and giving to the poor. The communists tell the have-nots they will benefit from share-the-wealth ideas the communists have fostered.

This idea is not the sole property of communists. The popular concept of opposing capitalists has crept into our own society via vote-gobbling politicians. To be for the working man and the little guy has been extremely popular in the United States in recent years.

There is only one hitch to the whole affair which will make the entire concept not only repulsive but downright disastrous if continued.

The key word is food. In the past year the world received 65 million new mouths to feed. The communist world, where capitalism is non-existent, plants 75 percent more acres than the United States, and yet the U. S. produces over 30 percent more food. Communist China is providing less food per capita than when the communists took over.

One research expert predicts a big famine in the world within 15 years. Even at the present time half the population of the world suffers from malnutrition. By the early 1970's the famine will hit in China and India and move through Latin America and Africa during the 1980's.

The one hope for staving off this famine is capitalism. One capitalist with his own decisions on his own land will produce more than a dozen workers on a state farm.

Banks providing capital as required by the individual produce more food and fibre. The risk of that capital and the responsibility that goes with it make smart men

### Anniversary Party Honors Mrs. C. Olsen

Attend 4-H Summer School  
The Misses Lois Seuell, Cathy Wenke and Kay Morinaka left Monday morning for Corvallis to attend 4-H summer school.

Mrs. Mary Thompson, Mr. and Mrs. Bill Johnson of Ontario attended graduation exercises for the latter couple's daughter, Mrs. Bobbi Thompson, Saturday, June 5, at Eastern Oregon college in La Grande.

Miss Mary Weir and Miss Catherine Samer spent from June 10 to 13 in Portland where they attended the Rose festival and visited Mr. and Mrs. Gordon Burpee.

Mrs. Joe Brock of Kingman Colony, Mr. and Mrs. Mike Douglas visited Sunday in the Dyré Roberts home.

Mrs. Goldie Roberts accompanied Mrs. Helen Bishop to La Grande last week to help Linda Bishop move her belongings from her living quarters at Eastern Oregon college. The two women also visited Mrs. Marguerite Scott, a former resident of the Adrian area.

smarter. There is no satisfactory substitute.

For these reasons, even the poor people of the world must and will eventually realize the state cannot feed them. The communist system is akin to milking the cow and feeding her the milk to keep her alive. It is not working out and famine will tell the world exactly and brutally that the communist type of agriculture will not work.

This is our practical defense against communism. We should let the world in on the pitfalls before it is too late.
