Why I Hate Advertising

My name's Johnson. I'm a taxpaying American citizen and I hate advertising.

Take toothpaste. Since I was a pup I used the same toothpaste. So my wife reads ads about toothpaste that stops decay. Nothing will do but we use this new stuff. Sure, the kids don't have cavities any more but this new toothpaste sure doesn't taste to me like the old days. Thanks to advertising.

Take washing machines and dryers and all that jazz. These women read ads about saving work and time so they got appliances all over the place. I figure they haven't got enough to do anyway. Nuts to advertising.

If you want to get right down to it, take all this advertising my competition runs. These characters run ads with prices so low I got to run my own ads and practically give the stuff away. It's the only way I can get people in to buy my stuff. Advertising is a heck of a way to run a business.

Advertising is for the birds. It gives the customer all the breaks. Speaking for myself, the only time I ever read it is when I'm going to buy something and need to find out where I can get the best buy.

The only time it pays to be advertised at is when you're going to buy something.
