"My 40-year-old home is as comfortable as any"

GLENN ERWIN, ABERDEEN

"It isn't only the new homes that can provide modern electric comforts," says Glenn Erwin. "My 40-year-old home is as comfortable as any. It was converted to electric heat in 1960. It works just fine and requires no care. We turn it on and never look at it again. We like our electric heat."

MOST OLDER HOMES can be converted easily to flameless electric heat. You can get information and planning assistance at your local Idaho Power office.
