State Farm Bureau Official Speaks At Wednesday Meeting of Chamber

Joe Hobson, area farmer and vice president of the Oregon Farm Bureau organization, was guest speaker at the Wednesday noon luncheon meeting of Nyssa Chamber of Commerce.

Area Alfalfa Seed Growers Meeting Slated Jan. 27

Malheur County Legume Seed Growers association will hold its annual meeting on Jan. 27 starting at 10 a.m. in the Oregon Trail hall, according to George Schiemer, association president.

W. P. Stephen, Oregon State university entomologist, will bring the latest information on alkali and leaf-cutter bees. These are the principal pollinators of the alfalfa seed crop and their presence in the seed-producing districts of the county have produced some very heavy seed yields.

Local work in testing alfalfa varieties for seed production will be brought to the group by Neil Hoffman, superintendent of Malheur County Experiment station.

Luther Fitch, research assistant at Malheur Experiment station, will bring the group the latest information on control of Canadian thistle and dodder in the alfalfa seed crop.

Association directors have requested that a member of the Agricultural Development division of the Oregon State Department of Agriculture present information on the formation of an alfalfa seed commission. Money raised by a commission would be used to advertise certified varieties of alfalfa seed grown in the area, research on alfalfa disease and weed problems and the development of alfalfa varieties that produce heavy seed yields locally and are adapted to climatic and other factors in the major seed-use areas.

A representative of the Federal Crop Insurance division will be on hand to present information on the possibility of getting alfalfa seed covered by the agency's program.

New seed certification regulations for 1966 will be explained by Harold Youngberg, OSU seed certification specialist.

Association business will include election of directors to fill the expired terms of Carl Lee Hill of Adrian, David Beebe of Ridgeview, Ben Witty of Parma, George Folkman of Sunset Valley, Jay Gibson of Buena Vista and Ben Justus of Vale.

Schiemer said that a no-host luncheon will be held at noon and that all persons interested in alfalfa seed are invited to attend the meeting.

TVCC Open House Scheduled Sunday

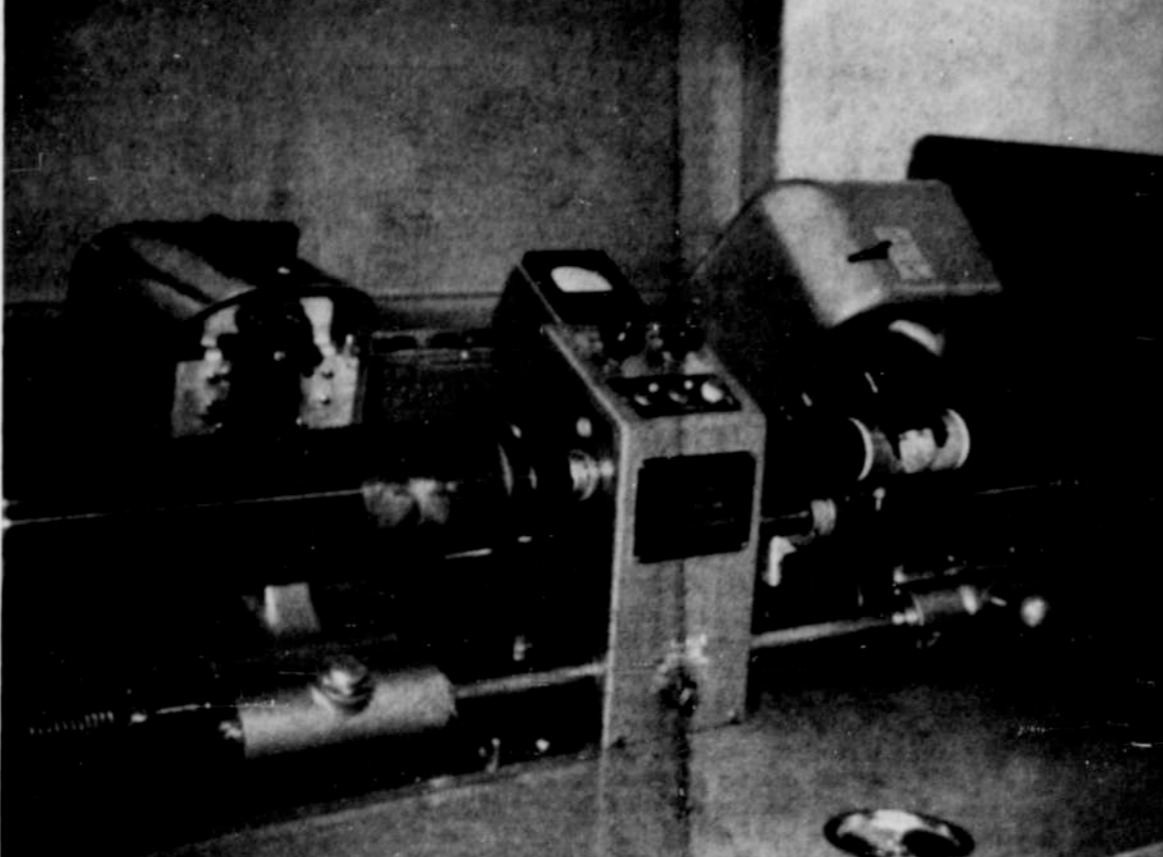

Treasure Valley Community college has scheduled an "open house" Sunday, Jan. 23, on the new campus at Ontario. All buildings will be open for inspection from 1 to 6 p.m. Ceremony of presentation of the building by the contractor will be held at 3 o'clock.

Top Growers Named at Cannery Dinner

THIS PHOTO WAS SNAPPED at Idaho Canning Company's annual banquet meeting honoring corn growers of the area. The dinner was served Tuesday evening at Boulevard Grange Hall. Pictured are company personnel and two couples who were among the three top growers in the various acreage divisions. Left to right are Yash Suyematsu of route 1, Ontario, winner in the 25 to 50-acre division with 8.32 tons per acre; Lloyd

Produces Engraving of Own Operation

THE VISUAL OPERATING AREA of the Journal's new Fairchild ILLUSTRATOR is shown in the process of making an enlarged engraving from a small photo of Miss Gail Flinders whose engagement is announced in this week's issue of Nyssa's hometown newspaper. The mechanical components consist of two cylinders on a common shaft. On the right-hand smaller cylinder is the actual photo being scanned and engraved by a heated stylus on a sheet of plastic encompassing the larger left-hand cylinder. The cabinet, which is 66 1/2 inches long, 28 inches wide and 49 1/2 inches high, houses numerous amplifying tubes and intricate wirings, resembling those of a television set.

Idaho Canning Company Honors Corn Growers; Top-Yield Awards Given

An estimated 125 area corn growers and their guests were present at Idaho Canning company's annual banquet meeting held on the evening of Jan. 18 at Boulevard Grange hall. Also present were company owners and personnel serving the Nyssa plant.

Each lady in attendance was presented a corsage as she entered the hall and musical entertainment was furnished by Fred Haun and his orchestra of Weiser.

Yasu and Kay Teramura of Teramura Farms, Inc., were top growers for 1965 with 9.54 tons of corn per acre. Their crop was judged in the five to 25-acre division.

Second place award in the same acreage class went to Orville Groves with 9.45 tons per acre and third place winner was John Penne with 9.36 per acre yield.

Other winners named First, second and third place winners in the 25 to 50-acre division were Yash Suyematsu with 8.32 tons per acre; Amalgamated Sugar Co., 7.67; and Chet Mills, 7.20.

On 50 acres of land and up, the three top growers were Wilbur Atherton with 8.43 tons per acre; Laurel Amick, 7.53; and Joe Recla, 6.62.

It was announced that average yield for the entire Payette-Nyssa district was 7.10 tons per acre. In 1964 the average was 7.02.

David Stohr, the canning company's field supervisor, served as master of ceremonies at the Tuesday evening meeting and a film of Florida was shown.

Winners of four door prizes were Mrs. Wilbur Atherton of route 1, Ontario, electric carving knife; Mrs. John Penne of route 1, Vale, electric mixer; Ray Riggs of Parma, transistor radio; and Mick Fulton of route 1, Vale, traveling alarm clock.

Ward also stated there are several teacher vacancies in the system for the 1966-67 school year. Resignations have been received from Mrs. Olive Mitchell and Mrs. Juanita Maggard, first grade teachers; and Mrs. Gladys Newbill, second grade instructor, plans to resign at the end of the present school term. An elementary school principal is also needed as the school has been without one this year, Ward said.

Interested applicants are invited to contact Superintendent Ward at the school plant.

Dee-Lite Bakery Again Operating

The Dee-Lite Bakery plans to be back in operation this weekend, according to owners Mr. and Mrs. Willard Covert. A trial run will be made tonight (Thursday) to see if all equipment is in top running shape and they expect to have a small stock of all baked goods by Saturday, or Monday at the latest.

The firm suffered fire damage Dec. 22 to equipment and stock. Since that time they have relied on an Ontario bakery to furnish stock for their retail outlets.

Journal Installs Fairchild Engraver Furnishing Readers Larger Pictures; Versatility Will Also Aid Advertisers

The Journal owners had a new Fairchild engraver installed, the latter part of last week, which should improve the paper for readers and be a boon to advertisers using pictures. The Illustrator model purchased is very versatile, and when mastered by the operators, will enlarge pictures for use up to 8 x 10 inches, or five columns in the paper.

Prints can be used from any size camera and can be run actual size or enlarged in 1.7 to 1 or 2.2 x 1 ratios. It can be used for reverses (either changing from black printing on white or from white on black) and with a flip of a switch can change directions of picture facings. It can reproduce from wall-paper, labels, pencil sketches, wash drawings, clippings, color reproductions or textiles (so the company book says).

But the big improvement will be for readers in having more and larger pictures. And they can be engraved as late as Wednesday, if the need arises. (Heretofore to be in the Thursday paper, photos had to be in the office Monday afternoon for mailing to Boise or Meridian.)

This won't revolutionize the printing of the paper but the owners feel it will provide convenience, speed and quality in the use of pictures not available before. The whole Journal staff is proud of this machine and will later hold "open house" periods for the public.

Some of the new work is shown throughout this edition. Inquiries or comments from readers and advertisers will be welcome.

Onion shipments from other districts in the state included: Brooks, 286 cars; Gaston, 68 cars; Portland, 12 cars; and Medford, three cars.

Other areas shipping potatoes were Milton-Freewater, one car; Portland, 24 cars; Salem, 38 cars; Redmond, 658 cars; Klamath Basin, 1061 cars; and Medford, seven sacks.

Area residents are invited to view a 22-minute film and hear Miss Staples comment about the picture and discuss the Australian nation.

Further information may be obtained by calling Harry Hoch, continuing education supervisor at TVCC, phone No. 889-6493.

Contract Signed With Bend Firm On Water Project

Nyssa city councilmen awarded a contract last Friday for the city's \$120,000 water improvement project to Ward Construction company of Bend. Cost of the project is approximately \$70,000, according to City Manager Fred Koch.

Six bids were received, all within the estimated budget figures, and ranged between \$66,000 and \$77,000. The quality of equipment used by the contractors and alternate plans were studied before awarding the contract, Koch reported.

Included in the second phase of the water project are construction of two pump houses, transmission lines, electrical system, chlorinator, a pump with standby diesel engine and miscellaneous items.

Onion shipments from other districts in the state included: Brooks, 286 cars; Gaston, 68 cars; Portland, 12 cars; and Medford, three cars.

Other areas shipping potatoes were Milton-Freewater, one car; Portland, 24 cars; Salem, 38 cars; Redmond, 658 cars; Klamath Basin, 1061 cars; and Medford, seven sacks.

Area residents are invited to view a 22-minute film and hear Miss Staples comment about the picture and discuss the Australian nation.

Further information may be obtained by calling Harry Hoch, continuing education supervisor at TVCC, phone No. 889-6493.

To Direct Nyssa Co-op Activities

FIVE OF THESE MEN are members of Nyssa Cooperative Supply's board of directors, pictured with local plant manager, Ernie B. Metcalf, in dark suit. Seated (left to right) are Tom Drydale, Gene Honey and Irvin Topliff. Standing are Ira Price Sr. and Harold Kurtz. This photo was taken at the Co-op's annual dinner-meeting held Jan. 12 at Oregon Trail hall. Drydale and Topliff had just been re-elected for terms of three years and the others are holdover members of the board. Door prize was a Capri automatic dishwasher which was won by Mr. and Mrs. Orland White of the Arcadia community. A comparison of the year ending Oct. 31, 1965, with the previous year's figures shows a continued growth of the cooperative operation. Gross sales increased from \$408,000 to \$419,000, net margin of profit for patrons was upped from \$27,000 to \$31,000 and the percentage of profit (based on gross sales) rose from 6.6 to 7.48.—Staff Photo.

Annual Meeting Of Potato Growers Tuesday, Jan. 25

The annual meeting of Malheur Potato Growers association will be held Tuesday, Jan. 25, at the Boulevard Grange hall near Cairo junction, according to Ray Russell, president.

Specialists from Oregon State university, Experiment station, U.S. Department of Agriculture, will discuss problems. A discussion on fertilizer will be conducted by Dr. David Moore, soils specialist from OSU. This will cover some of the preliminary work on a soil and fertilizer survey program now being carried on throughout the county.

Disease control and potato research work will be discussed by Potato Specialist George Carter of the Klamath Experiment station.

To Discuss Heinz Operations This is the first general grower meeting in the area since H. J. Heinz purchased Ore-Ida Foods, Blaine Holladay, assistant general manager of Ore-Ida will give the growers a first-hand report on the plans and operations for H. J. Heinz in this area.

Two entomologists, Dr. Jerry Onsager, USDA, Yakima, Wash., and Robert Every of OSU, Corvallis, will report the latest available information on approved wireworm control measures.

Other subjects on the varied agenda will include weed control in potato fields, spacing of Nor-golds for reduction of hollow heart and atmospheric controlled potato cellars.

Election of new directors will be carried out during the lunch hour. A ham dinner will be served through the courtesy of the Malheur Potato Growers association.

Further information may be obtained by calling Harry Hoch, continuing education supervisor at TVCC, phone No. 889-6493.

Thieves Break Glass To Enter Adrian Firm

The Malheur County Sheriff's department is investigating a burglary which occurred early Sunday morning at the Van Petten Lumber company in Adrian. Deputy Sheriff Dick Pounds reported that entry was gained by breaking a large plate glass window in the front of the store.

Manager Vern Parker stated that six rifles and shotguns, three radios, several hunting knives and about \$5 in small change are missing from the firm.

Juvenile Crimes To Be Publicized In Certain Cases

Conditions under which juvenile offenders will be publicized were given a Journal reporter Wednesday by Judge Ellis A. White.

White said the policy adopted, effective Jan. 1, 1966, included: (1) second offenders appearing before the court, (2) those previously before the court and now under probation, (3) first time offenders whose crimes are of a very serious or violent nature.

All three classes of violators apply to all teenagers and, if deemed in the public interest, might include those younger. Minor traffic violations would not be included unless persistent.

The publicity, to be made available to all news media, will include the names of the offenders, names of parents, the charge and disposition by the court, the same as for an adult charged in another court.

AHS Superintendent Reports on Project; Tells Resignations

Superintendent Glenn Ward announces that working drawings for the remodeling and reconstruction project at the Adrian school plant are completed and school board members hope to let bids by the first of March.

Bids opened in August on previously submitted plans exceeded the money available for the construction project.

Ward also stated there are several teacher vacancies in the system for the 1966-67 school year. Resignations have been received from Mrs. Olive Mitchell and Mrs. Juanita Maggard, first grade teachers; and Mrs. Gladys Newbill, second grade instructor, plans to resign at the end of the present school term. An elementary school principal is also needed as the school has been without one this year, Ward said.

Interested applicants are invited to contact Superintendent Ward at the school plant.

NHS Exchange Student Slates Program Tonight

Miss Margaret Staples, Nyssa high school foreign exchange student from Australia, will present a program about her native country at 8 o'clock this evening in the American Legion hall.

Area residents are invited to view a 22-minute film and hear Miss Staples comment about the picture and discuss the Australian nation.

Further information may be obtained by calling Harry Hoch, continuing education supervisor at TVCC, phone No. 889-6493.

More and Larger Pictures

But the big improvement will be for readers in having more and larger pictures. And they can be engraved as late as Wednesday, if the need arises. (Heretofore to be in the Thursday paper, photos had to be in the office Monday afternoon for mailing to Boise or Meridian.)

This won't revolutionize the printing of the paper but the owners feel it will provide convenience, speed and quality in the use of pictures not available before. The whole Journal staff is proud of this machine and will later hold "open house" periods for the public.
