The county court has been alert to recreation needs and provided materials for interested community groups in building nine boat ramps on major streams and reservoirs through non-property tax funds.

Giving full time to the office of county judge has been time and energy demanding, yet I have found rewarding the responsibilities of the juvenile court in a policy of firmness and fairness to the end that our boys and girls grow to become responsible adults. Most of our youngsters are good kids, coming from good homes. Using resources of these homes, parents and the community has enabled our county to maintain one of the lowest rates of second offenders coming to the court in Oregon.

Cooperation with attorneys has resulted in bringing to current status matters of probate and less delay in the administration of estates.

Understanding and cooperation with families of the mentally ill and their physicians has brought the benefits of treatment and return home of many of these patients.

I have enjoyed working with the people of Malheur county who have made possible the upgrading of county government and whose willingness to work with the court has contributed greatly to growth and progress through
