Scoreless Deadlock Is Result of Nyssa, Payette Grid Game

A scoreless deadlock was the result of the Nyssa-Payette football game played Friday evening on the Pirates' gridiron. Both clubs played defensive ball but neither could get far enough into the other's territory to reach the double stripe in the end zones.

It was the Payette team's second tie as the scoreboard read 6-6 in a previous game with Parma. Their record stands at 1-1-2, while the Bulldogs had lost three games prior to the Friday contest.

Nyssa will travel to Emmett Friday night to battle the Huskies.

NYSSA HIGH SCHOOL CALENDAR OF EVENTS

The 'Philadelphia Lawyer' Explained

Frequently, when a problem is particularly perplexing, someone will exclaim that "this would confuse a Philadelphia lawyer." The term has a close connection with one of the most important cases in American legal history—the trial of John Peter Zenger in 1735.

Zenger was the printer and publisher of a paper known as the New York Weekly Journal. He criticized the administration of Royal Governor Cosby of New York in print. The tyrannical Cosby had Zenger jailed on a charge of libel.

Zenger had editorialized that the governor had deeds to lands destroyed, judges arbitrarily displaced, new courts established without the consent of the legislature and had denied the right to vote to certain landowners.

All of these accusations were true but truth was held to be no defense in a prosecution for seditious libel, which was defined as "a written censure upon public men for their conduct as such."

Zenger was brought to trial and his New York counsel were disbarred because they came to his defense. After disbarment they secured the services of Andrew Hamilton of the Philadelphia bar to continue the defense. Hamilton was the foremost lawyer in the American Colonies and the term "Philadelphia lawyer" was long used as a special compliment in his individual honor.

Hamilton offered his services to Zenger without fee. Displaying great moral courage he defied the judges who were controlled by the governor and told the jury it was not considering the cause of just a poor printer. Instead, it was considering the cause of "the liberty both of exposing and opposing arbitrary power by speaking and writing truth."

The chief justice instructed the jury that the printed words of Zenger were libelous and that if the jury found he had published them (and he admitted he had), then Zenger should be found guilty. Under such circumstances it seemed obvious that Zenger would be convicted.

Fortunately, the jury, which was not controlled by the governor, defied the court. Zenger was found not guilty and was freed.

Governor Morris, one of the members of the Constitutional convention, said years later, "The trial of Zenger in 1735 was the germ of American freedom, the morning star of that liberty which subsequently revolutionized America."

The trial of Zenger kindled the idea of a free press in America—an idea and an ideal that still survives with vigor after more than 200 years.
