ON THE LEFT is Arleigh Adams, new manager and co-owner of the Chevrolet agency in Nyssa, pictured with Jack Swager, previous owner and manager. A deal was consummated Friday of last week whereby Adams and Erling Johannesen of Emmett became owners of the motor firm. Adams, a resident of Nampa for 15 years, had been with Burke Hudleston Motors there for the past four years. He and his family have moved into the Swager residence at 112 North Fifth street. Johannesen is county agricultural agent for Gem county (Emmett) and owner of another agency there. Swager says he has no immediate plans. More details will be carried in the Journal next week.

Agricultural Program to Be Aided By Federal Land Bank Associations

The Federal Land Bank association of Ontario, along with 706 other associations having a total membership of some 388,000 farmers, ranchers and dairymen across the country, will help in the job of "speaking up" for United States agriculture during 1966.

Dan E. Roberts, association manager, reviewed plans for the 1967 agricultural program at a meeting of his board of directors last week. The tribute to "America's Farmers: Providers of Plenty" will be highlight of a 50th anniversary observance of the Federal Land Bank of Spokane, for which the association makes and services loans. Eleven other land bank districts throughout the United States and Puerto Rico will hold similar dedicatory programs during the coming year, Roberts said.

Conference Set in Spokane

Open houses and specially programmed annual meetings will be among association activities in 1967, according to Roberts. Directors of all 61 associations in the Spokane bank district (Idaho, Montana, Oregon, Washington and Alaska), along with association managers, fieldmen and bank officials, regional managers and appraisers, will attend a district-wide 50th anniversary conference in Spokane Jan. 19-20, 1967. This event will initiate the year-long observance.

"Farmers are entitled to an opportunity to 'speak their piece' for a change," Roberts said, "especially now, when there is a great deal of talk about inflation. They must pay more for what they buy each year, but they are receiving very little more for what they sell than they did 15 years ago."

Farmers Producing More

It is a known fact that on the average, one farmer today produces food for 33 people compared with 15 in the early 1940's, Roberts said, and the key word for what is taking place on farms and ranches today is "efficiency." The land banks aim to "translate" this efficiency into terms of personal meaning for non-farm segments of the U. S. public, he said.

Farmers Receive Small Return

"Consumers should know, for example, that the farmer receives only about four cents for the wheat he provides in a 25-cent pound loaf of white bread, 2.7 cents as his share of a box of corn flakes retailing for 30 cents and that the heavily capitalized agricultural business had only a 2.8 percent return on investment last year compared with 12.9 percent

for leading U. S. corporations.

"As the farmer-owned land banks have been a major source of long-term agricultural credit for the past 50 years," Roberts concluded, "we feel it is a worthy objective of our golden anniversary observance to document the true contributions America's farmers make to the highest standard of living in the world which our nation enjoys."

PCA Farm and Ranch Loans Cost Less

When farmers and ranchers borrow money to finance vital improvements or pay funds for operating expenses costs are lowest through PCA—Production Credit Association—sometimes only half some other loans.

You pay interest only on money you actually use, only for the time you use it. Payments are applied first to principal, reducing the balance subject to interest.

Loans for operating are budgeted for all year, including planting, growing, harvesting.

Drop by our office and we show you how our plans serve you best and you less. Also get your "Budgeting for Profit" out cost or obligation.

I Am Voting for— ROBERT B. DUNCAN For Oregon's U. S. Senator

I served with Robert Duncan in the Oregon Legislature in 1957 and again in 1961, and found him to be a man of his word. He says and does what he thinks is right. He gets along with his colleagues and has their respect. A proof of this, he is the only man in Oregon who has ever been elected two consecutive terms Speaker of the House of Representatives.

He believes the government should do for the people only that which they cannot so well do for themselves.

Attention Voters!

- Did you know that the County Judge's salary was \$5500 (Oregon Blue Book) when Ellis White took office? Today, 1966, it is \$7300 per year (1966 budget).
- Did you know that the O.T.R. (Oregon Tax Research) found the County of Malheur overspent its budget \$385,000?

They, the County Court, immediately sent up a smoke screen to the effect they didn't have to account for disaster monies, but very conveniently forgot to mention that O.T.R. found the General Fund overspent \$1324 (1961-62). County Fair budget, 1962-63, was \$17,554; spent, \$20,000; overspent, \$2446. Indigent Liquor Fund budget, 1962-63, \$16,900; spent, \$29,716; overspent, \$12,816.

The figures below represent the budgets of Malheur County for the years as indicated, were released for the County Court by Ellis White, with the suggestion that the information be saved for future checks of reference. Published Oct. 15, 1964, by Malheur Enterprise.

1954-55—\$508,302.61	1955-56—\$385,432.00	1956-57—\$404,986.85
1957-58—\$429,321.45	1958-59—\$433,452.00	1959-60—\$477,846.00
1960-61—\$536,165.00	1961-62—\$519,271.00	1962-63—\$537,007.26
1963-64—\$610,705.27	1964-65—\$595,101.65	

A comparison of the budgets of the last six years. (Ellis White's Administration)—

1961-62—\$519,271.00	1962-63—\$537,007.26	... Increased \$17,736 or 3-Plus% over 1961-62.
1963-64—\$610,705.27	... Increased \$73,698.01 or 14 1/2% over 1962-63.	
1964-65—\$595,101.65	... Decreased \$15,603.62 or 2 1/2% under 1963-64.	
1965-66—(Not Available)		
1966-67—\$863,339.00 (1966-67 Budget)	... Increased \$344,068.00 or 66% over 1961-62 budget, his first budget.	

• In an editorial on June 16, 1966, the Argus-Observer quoted from a report of Oregon Tax Commission that the average family income of Malheur County was \$4,662. Only one other county (Wallowa) was lower. If the large farm and business operations are eliminated from the top, many of our farmers and laborers will be in the L.B.J. Poverty Bracket.
