P Highest level of oil heat service for Northwest farmers

There's no better heating oil than Pacific heating oil. But we must admit there are other brands that are pretty close in quality.

The big difference is the Circle P brand of service, based on these principles:

HONEST PRICING . . . the same fair tank wagon delivery price without discrimination to any buyer of the same quantity and service.

TIMELY AVAILABILITY of heating oil and other products delivered where and when you need them.

ASSURED QUALITY . . . Pacific heating oil is high in heat calories, and clean burning.

HIGHEST LEVEL OF SERVICE, filling routine and emergency needs plus a variety of special services at no extra cost.

"We believe that the agricultural industry, which can be victimized by nature, should not be plagued by problems over which man has a degree of control—namely service, prices and availability of necessary supplies."
