

**MAN OF THE SEA**—That is what Adolph Schroeder pre- caption this photo. To this reporter he is not an "old man" but an interesting one with a young, alert and creative mind. He is figuring out ways to perform unusual tasks. This is actual self-portrait. As Adolph appears to be working on a reel, really pulling the fish cord, attached to a camera, and is his own picture. Light was furnished by the use of two 300-watt bulbs, one overhead and the other directly in front of his sub- pictures in the July 21, 1966, issue of the Journal told the of a large drag-saw which Schroeder designed and built for big stones. He is one of this area's most ardent rock- ers. Perhaps the caption of this photo should be "Self-Portrait Man With Many Talents."

**LETTERS**  
to the Editor

Editor:  
of our greatest enemies is America right now and little being done about enemy has a name that likes. It is a deadly dis- eased alcoholism.  
our Gate City Journal of 1966, Mayor Grant Rine- proclaimed Alcoholism In- on Week. Another article same page, same issue, "Alcoholism Discussion" esday, Nov. 29, in the On- high school band room and ere only two people there ysa.  
ow there are more people sa who are interested in untry and their children; why I am writing this  
sure the public does not and. Dr. Edward Scott re to give you information disease and tell you what uld do to help. Another on the same front page as ther two was measles con- vaccination urged for tots.  
a sure the parents and arents of tots were inter- in their children. This in- on that we need to know as important for this great as the vaccination. You

might say it is like a vaccination. Statistics show that in Malheur county the greatest disease among the young people is alcoholism. There is much that can be done to help the ones who are ill now, but we need a vaccine to head this disease off and our greatest doctors and all others who have tried to control this disease agree that educating the people is the best defense now. There will be another an- nouncement soon for you to join us in this fight. I know when you understand this program you, too, will want to do all you can to check this disease. When people hear the word alcoholic they think of a drunk who is good for nothing but to consume alcohol, but that is not so. The next one you hear of be- ing an alcoholic may be the doc- tor telling you your child is an alcoholic. Don't silence that loved one to save the family name. They are sick like one who has cancer or diabetes, a TB victim or any other bad disease. Sometimes it can't be control- led, but rarely have we seen it fail when one is capable of being honest with himself and others. If this article interests you enough that you want to learn more about what you can do, you may attend a meeting with the AA group as we are working with the Oregon Board of Control, Mental Health division, or you may call 372-3318. (Name on File)

**Officials Selected For Malheur Barracks**

World War I Veterans, Malheur barracks No. 352 met Nov. 20 at the Vale Legion hall. Thirty-eight area residents were present for the 1:30 potluck dinner.
